Conference Details: Curzio One Wealth Conference

"We believe that U.S. Gold Corp is well positioned to capitalize on the United States' mining renaissance, and we look forward to showcasing our premier gold and copper assets that are poised to capitalize on growing global demand at the Curzio One Wealth Conference 2025. Our CK Gold Project indicates robust returns and also positions us to be a near-term provider of sustainable mineral development in the United States", said Mr. Norman.

We believe that U.S. Gold Corp.'s CK Gold Project in Wyoming-a fully permitted, advanced-stage gold-copper deposit-demonstrates the potential for shovel-ready projects to deliver economic benefits, job creation, and essential metals for clean energy technologies. With a Preliminary Feasibility Study technical report published in February 2025, demonstrating robust economics, the project is now progressing towards definitive feasibility, which we believe will position the project as a near-term provider of domestic U.S. copper and gold production.
