

# Tartisan Nickel Corp. Prepares for Phase 1 Drill Program at the Kenbridge Nickel-Copper-Cobalt Project

12.11.2025 | [Newsfile](#)

Toronto, November 12, 2025 - [Tartisan Nickel Corp.](#) (CSE: TN) (OTCQB: TTSRF) (FSE: 8TA) ("Tartisan", or the "Company") is pleased to announce that the Company is preparing to commence a Phase 1 diamond drill program totaling approximately 3600 meters at its 100% owned Kenbridge Nickel-Copper-Cobalt Project, located in the Kenora Mining District, northwestern Ontario.

The upcoming program is designed to expand and upgrade existing resources at the Kenbridge Deposit, focusing on converting inferred resources into the Measured and Indicated categories as well as test extensions of high-grade Ni-Cu mineralization below the existing 623-meter shaft.

Drill targets have been prioritized based on results from previous exploration and downhole geophysical modeling, with the aim of extending known high-grade nickel-copper mineralization both down-plunge and along strike of the Kenbridge Deposit.

Key Objectives of the Phase 1 Program:

- Complete approximately 3600 meters of NQ diamond drilling across priority targets
- Test extensions of high-grade Ni-Cu mineralization below the existing 623-meter shaft
- Improve geological and metallurgical understanding to support a potential PFS
- Collect new data to support future mine design and resource conversion

Tartisan Nickel Corp. continues to evaluate additional targets within the broader Kenbridge Nickel Project area which covers approximately 4,273 ha. of patented and staked claims with excellent infrastructure access via road from Sioux Narrows and Kenora, Ontario.

Mark Appleby, CEO of Tartisan Nickel Corp. states, "The upcoming Phase 1 drill program represents an important step in advancing the Kenbridge Project toward production readiness. Our objective is to strengthen the resource base and advance engineering studies that will form the backbone of our pre-feasibility work."

About Tartisan Nickel Corp.

Tartisan Nickel Corp. is a Canadian-based mineral exploration and development company which owns the Kenbridge Nickel Project near Sioux Narrows, Northwestern Ontario, the Night Danger Turtle Pond project near Dryden, Ontario as well as the Sill Lake Silver Property near Sault Ste. Marie, Ontario. Tartisan Nickel Corp. common shares are listed on the Canadian Securities Exchange (CSE: TN) (OTCQB: TTSRF) (FSE: 8TA). Currently, there are 130,995,782 shares outstanding (137,784,671 fully diluted).

For further information, please contact Mark Appleby, President & CEO, and a Director of the Company, at 416-804-0280 (info@tartisannickel.com).
