

McFarlane Lake Announces Partial Redemption of Senior Secured Debentures Following Sale of West Hawk Lake and High Lake

13.11.2025 | [ACCESS Newswire](#)

TORONTO, November 13, 2025 - [McFarlane Lake Mining Ltd.](#) ("McFarlane" or the "Company") (CSE:MLM)(OTCQB:MLMLF) is pleased to announce that, in accordance with the trust indenture dated September 29, 2025 (the "Indenture"), between the Company and Odyssey Trust Company (the "Trustee") and with the consent of a majority of the holders provided on October 24, 2025 waiving the Indenture's 60-day notice requirement for redemption, the Company submitted notice on November 11, 2025 of the early redemption of US\$2,344,469 of its US\$15,000,000 aggregate principal amount of 15% senior secured debentures maturing October 26, 2026 (the "Debentures"). The Debentures have been redeemed as of November 11, 2025 (the "Redemption Date"), in accordance with the terms of the Indenture.

The Trustee will pay holders of Debentures a redemption amount of approximately US\$167.92 for each US\$1,000 principal amount of the Debentures, being equal to (i) US\$156.30 and (ii) all accrued and unpaid interest hereon to but excluding the Redemption Date, inclusive of the early repayment premium required pursuant to the Indenture (collectively, the "Redemption Price").

Under the Indenture, the October 28, 2025 West Hawk Lake and High Lake sale was considered a Permitted Asset Sale (as defined in the Indenture) of a secured asset, of which at least 50% of the Net Cash Proceeds (as defined in the Indenture) are to be applied to redeem the Debentures. The payment of US\$2,344,469 against the Debentures represents 50% of the Net Cash Proceeds from the sale of West Hawk Lake and High Lake.

Holders of the Debentures are encouraged to contact their investment dealer or the Trustee to coordinate the surrender of their Debentures. The Redemption Price will be payable in cash upon presentation and surrender to the Trustee of the Debentures called for redemption at #1230, 300 - 5th Avenue SW Calgary, Alberta, T2P 3C Attention: Corporate Trust.

About McFarlane Lake Mining Limited

McFarlane Lake Mining Limited is a Canadian gold exploration company focused on advancing its flagship Juby Gold Project, located near Gowganda, Ontario, within the established Abitibi Greenstone Belt. The Juby Project hosts a current (effective September 29, 2025) NI 43-101 compliant Mineral Resource Estimate (MRE) of 1.01 million ounces of gold in the Indicated category at an average grade of 0.98 g/t gold (31.74 million tonnes) and an additional 3.17 million ounces of gold in the Inferred category at an average grade of 0.89 g/t gold (109.48 million tonnes). The estimate was calculated using a long-term gold price of US\$2,500 per ounce, applying cut-off grades of 0.25 g/t gold for open pit and 1.85 g/t gold for underground resources.

A sensitivity analysis completed at a higher gold price of US\$3,750 per ounce resulted in an Indicated Mineral Resource of 1.20 million ounces grading 0.94 g/t gold (39.51 million tonnes) and an Inferred Mineral Resource of 4.23 million ounces grading 0.85 g/t gold (154.50 million tonnes) applying cut-off grades of 0.25 g/t gold for open pit and 1.15 g/t gold for underground resources.

The independent MRE was prepared by BBA E&C Inc. in accordance with National Instrument 43-101 - Standards of Disclosure for Mineral Projects. The full technical report supporting the resource estimate will be filed on SEDAR+ within 45 days of the Company's public announcement of the MRE, see announcement of October 7, 2025.

McFarlane is actively planning an exploration drilling program and additional technical studies at the Juby

Gold Project to further evaluate and advance this large-scale gold system.

In addition to the Jubby Gold Project, McFarlane holds a portfolio of 100%-owned gold assets in Ontario, including the past-producing McMillan Gold Mine and Mongowin properties located approximately 70 kilometres west of Sudbury and the Michaud/Munro properties located 115 kilometres east of Timmins. McFarlane Lake Mining Limited is a reporting issuer in Ontario, British Columbia, and Alberta.

Readers are cautioned to refer to the "Cautionary Statement on Mineral Resources" and all other disclaimers included in this news release for important information regarding the limitations and verification status of the data presented above and elsewhere herein.

Wildeboer Dellelce LLP is acting as legal counsel for McFarlane.

Cautionary Note Regarding Forward-Looking Information:

This news release contains "forward-looking information" or "forward-looking statements" within the meaning of Canadian securities legislation. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as at the date of this news release. Any statement that involves discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", "is expected", "anticipates" or "does not anticipate", "plans", "believes" or "intends", or variations of such words and phrases, or stating that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of McFarlane to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Factors that could cause actual results to differ materially from those anticipated in these forward-looking statements are described under the caption "Risk Factors" in the Company's Annual Information Form dated as of November 27, 2024, which is available for view on SEDAR+ at www.sedarplus.com. Forward-looking statements contained herein are made as of the date of this press release and McFarlane disclaims, other than as required by law, any obligation to update any forward-looking statements whether as a result of new information, results, future events, circumstances, or if management's estimates or opinions should change, or otherwise.

There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements.

Cautionary Statement on Mineral Resources

This news release uses the terms indicated and inferred mineral resources as a relative measure of the level

of confidence in the resource estimate. Readers are cautioned that mineral resources are not mineral reserves and that the economic viability of resources that are not mineral reserves has not been demonstrated. The mineral resource estimates disclosed in this news release may be materially affected by geology, environmental, permitting, legal, title, socio-political, marketing or other relevant issues. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to an indicated or measured mineral resource category, however, it is reasonably expected that the majority of Inferred Mineral Resources could be upgraded to Indicated Mineral Resources with continued exploration. The mineral resource estimate is classified in accordance with the Canadian Institute of Mining, Metallurgy and Petroleum's "CIM Definition Standards on Mineral Resources and Mineral Reserves" incorporated by reference into NI 43-101. Under NI 43-101, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies or economic studies except for preliminary economic assessments. Readers are cautioned not to assume that further work on the stated resources will lead to mineral reserves that can be mined economically.
