

Battalion Oil Corporation Announces Third Quarter 2025 Financial and Operating Results

13.11.2025 | [GlobeNewswire](#)

HOUSTON, Nov. 13, 2025 - [Battalion Oil Corp.](#) (NYSE American: BATL, "Battalion" or the "Company") today announced financial and operating results for the third quarter of 2025.

Key Highlights

- Generated third quarter 2025 sales volumes of 12,293 barrels of oil equivalent per day ("Boe/d") (53% oil)
- AGI facility remains out of service
- Gas Production is being treated by third party
- The Company has entered into an amendment of its existing credit facility allowing additional operational flexibility
- The Company continues to pursue potential merger, acquisition and divestiture opportunities

Management Comments

Drilling and completion operations concluded in the West Quito Draw with two wells coming online and producing an average of 883 Boe/ day over the first 120 days of production. Well operations yielded more than \$1.1 million in savings per well across all phases compared to AFE. Both wells are still on choke while flowing back, confirming the significant inventory in the asset area.

The acid gas injection ("AGI") facility ceased operations on August 11, 2025 and remains out of service. In response, we temporarily shut in a portion of our Monument Draw field and redirected our gas production to alternative gas processing options available in the immediate vicinity of our operations. Currently, we have brought most wells back online; however, approximately 1,600 barrels of oil per day remain shut-in across Monument Draw ready to flow to sales.

Results of Operations

Average daily net production and total operating revenue during the third quarter of 2025 were 12,293 Boe/d (53% oil) and \$43.5 million, respectively, as compared to production and revenue of 12,076 Boe/d (52% oil) and \$45.3 million, respectively, during the third quarter of 2024. The decrease in revenues in the third quarter of 2025 as compared to the third quarter of 2024 is primarily attributable to a \$2.24 decrease per Boe in average realized prices (excluding the impact of hedges) partially offset by an approximate 217 Boe/d increase in average daily production. Excluding the impact of hedges, Battalion realized 98.3% of the average NYMEX oil price during the third quarter of 2025. Realized hedge gains totaled approximately \$4.1 million during the third quarter of 2025.

Lease operating and workover expense was \$11.69 per Boe in the third quarter of 2025 versus \$11.56 per Boe in the third quarter of 2024. The increase in lease operating and workover expense per Boe year-over-year is primarily the result of increased water production from new wells yielding higher disposal costs. Gathering and other expenses were \$9.02 per Boe in the third quarter of 2025 versus \$11.20 per Boe in the third quarter of 2024. The decrease in gathering and other expenses per Boe is primarily related to progress made at the central production facilities yielding lower labor and repair costs as well as increased throughput and overall production volumes being treated by the AGI facility during 2025. Although the AGI facility ceased operations on August 11, 2025, we were able to secure treatment at alternative facilities. The AGI facility treated natural gas production from March 2024 to August 11, 2025. General and administrative expenses were \$2.73 per Boe in the third quarter of 2025 compared to \$3.46 per Boe in the third quarter of 2024. The decrease in general and administrative expenses for the third quarter of 2025 is primarily due to lower merger costs. Excluding non-recurring charges, general and administrative expenses would have been

\$2.44 per Boe in the third quarter of 2025 compared to \$2.58 per Boe in the third quarter of 2024.

For the third quarter of 2025, the Company reported a net loss available to common stockholders of \$15.0 million and a net loss of \$0.91 per share available to common stockholders. After adjusting for selected items, the Company reported an adjusted diluted net loss available to common stockholders for the third quarter of 2025 of \$15.7 million or an adjusted diluted net loss of \$0.96 per common share (see Reconciliation for additional information). Adjusted EBITDA during the third quarter ended September 30, 2025 was \$18.9 million as compared to \$13.5 million during the quarter ended September 30, 2024 (see Adjusted EBITDA Reconciliation table for additional information).

Liquidity and Balance Sheet

As of September 30, 2025, the Company had \$213.8 million of term loan indebtedness outstanding and total liquidity made up of cash and cash equivalents of \$50.5 million.

On November 12, 2025, the Company entered into the Second Amendment to the Second Amended and Restated Senior Secured Credit Agreement which provides total net leverage ratio and asset coverage ratio covenant relief through the fiscal quarter ended June 30, 2027.

For additional details on liquidity, financial position, and recent developments, please refer to Management's Discussion and Analysis and Risk Factors included in Battalion's Quarterly Report on Form 10-Q for the quarter ended September 30, 2025 and its Annual Report on Form 10-K for the fiscal year ended December 31, 2024.

Adjusted EBITDA is a non-GAAP measure, which is presented based on management's belief that it will enable a user of the financial information to understand the impact of these items on reported results. This financial measure is not a measure of financial performance under GAAP and should not be considered as an alternative to GAAP measures, including net income (loss). This financial measure may not be comparable to similarly named non-GAAP financial measures that other companies may use and may not be useful in comparing the performance of those companies to Battalion's performance.
