

Alvopetro Announces \$20 Million Credit Facility

01.12.2025 | [CNW](#)

[Alvopetro Energy Ltd.](#) (TSXV: ALV) (OTCQX: ALVOF) ("Alvopetro" or the "Company") announces that our wholly-owned subsidiary, Alvopetro S.A. Extração de Petróleo e Gás Natural ("Alvopetro S.A."), has entered into a US\$20 million loan agreement (the "Credit Facility") with Itaú BBA International plc.

The Credit Facility has a two-year term and bears interest at a fixed rate of 7% per annum (payable quarterly), including all applicable charges and fees. The Credit Facility has a 12-month grace period upon which the loan is to be repaid in quarterly installments commencing on November 30, 2026 and ending on November 29, 2027. In connection with the Credit Facility, Alvopetro S.A. has entered into a standby letter of credit with Itaú Unibanco S.A. in Brazil and Alvopetro has agreed to enter into a guarantee agreement, guaranteeing the obligations of Alvopetro S.A. under both the Credit Facility and the standby letter of credit. Proceeds from the Credit Facility will be used to fund planned capital programs and for general corporate purposes. The Credit Facility includes customary financial covenants relating to the payment of dividends by Alvopetro, which are not expected to impact Alvopetro's current stakeholder return and capital allocation model.

President & CEO, Corey C. Ruttan commented:

"This credit facility provides Alvopetro with significant additional financial flexibility allowing us to accelerate our capital programs focused on high rate of return growth opportunities in Brazil and the Western Canadian Sedimentary Basin. These opportunities underpin our disciplined capital allocation model, balancing growth and returns to stakeholders."

Alvopetro Energy Ltd. is deploying a balanced capital allocation model where we seek to reinvest roughly half our cash flows into organic growth opportunities and return the other half to stakeholders. Alvopetro's organic growth strategy is to focus on the best combinations of geologic prospectivity and fiscal regime. Alvopetro is balancing capital investment opportunities in Canada and Brazil where we are building off the strength of our Caburé and Murucututu natural gas fields and the related strategic midstream infrastructure.

Forward-Looking Statements and Cautionary Language

This news release contains forward-looking information within the meaning of applicable securities laws. The

use of any of the words "will", "expect", "intend", "plan", "may", "believe", "estimate", "forecast", "anticipate", "should" and other similar words or expressions are intended to identify forward-looking information. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to vary significantly from the expectations discussed in the forward-looking statements. These forward-looking statements reflect current assumptions and expectations regarding future events. Accordingly, when relying on forward-looking statements to make decisions, Alvo Petro cautions readers not to place undue reliance on these statements, as forward-looking statements involve significant risks and uncertainties. More particularly and without limitation, this news release contains forward-looking statements concerning the expected use of proceeds from the Credit Facility and plans relating to the Company's operational and development activities, as well as the expected impact of certain covenants within the Credit Facility on the Company's stakeholder return and capital allocation model. Forward-looking statements are necessarily based upon assumptions and judgments with respect to the future including, but not limited to the success of future drilling, completion, testing, recompletion and development activities and the timing of such activities, the performance of producing wells and reservoirs, well development and operating performance, expectations and assumptions concerning the timing of regulatory licenses and approvals, equipment availability, environmental regulation, including regulations relating to hydraulic fracturing and stimulation, the ability to monetize hydrocarbons discovered, the outlook for commodity markets and ability to access capital markets, foreign exchange rates, the outcome of any disputes, the outcome of redeterminations, general economic and business conditions, forecasted demand for oil and natural gas, the impact of global pandemics, weather and access to drilling locations, the availability and cost of labour and services, and the regulatory and legal environment and other risks associated with oil and gas operations. The reader is cautioned that assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be incorrect. Actual results achieved during the forecast period will vary from the information provided herein as a result of numerous known and unknown risks and uncertainties and other factors. Current and forecasted natural gas nominations are subject to change on a daily basis and such changes may be material. In addition, the declaration, timing, amount and payment of future dividends remain at the discretion of the Board of Directors. Although we believe that the expectations and assumptions on which the forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because we can give no assurance that they will prove to be correct. Since forward looking statements address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, risks associated with the oil and gas industry in general (e.g., operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve estimates; the uncertainty of estimates and projections relating to production, costs and expenses, reliance on industry partners, availability of equipment and personnel, uncertainty surrounding timing for drilling and completion activities resulting from weather and other factors, changes in applicable regulatory regimes and health, safety and environmental risks), commodity price and foreign exchange rate fluctuations, market uncertainty associated with trade or tariff disputes, and general economic conditions. The reader is cautioned that assumptions used in the preparation of such information, although considered reasonable at the time of preparation, may prove to be incorrect. Although Alvo Petro believes that the expectations and assumptions on which such forward-looking information is based are reasonable, undue reliance should not be placed on the forward-looking information because Alvo Petro can give no assurance that it will prove to be correct. Readers are cautioned that the foregoing list of factors is not exhaustive. Additional information on factors that could affect the operations or financial results of Alvo Petro are included in our AIF which may be accessed on Alvo Petro's SEDAR+ profile at www.sedarplus.ca. The forward-looking information contained in this news release is made as of the date hereof and Alvo Petro undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.
