

Greenridge Exploration Announces Flow-Through Financing

01.12.2025 | [GlobeNewswire](#)

VANCOUVER, Dec. 01, 2025 - [Greenridge Exploration Inc.](#) ("Greenridge" or the "Company") (CSE: GXP | FRA: HW3 | OTCQB: GXPLF), is pleased to announce a non-brokered private placement (the "Offering") for gross proceeds of up to C\$2,000,000.1 from the sale of up to 5,714,286 flow-through Units of the Company (each, a "FT UNIT") at a price of C\$0.35 per FT Unit. The Company intends to use the proceeds from the Offering towards exploration on the Company's project portfolio.

Each FT Unit will consist of one (1) common share of the Company (each, a "Common Share") to be issued as a "flow-through share" within the meaning of the *Income Tax Act* (Canada) (each, a "FT Share") and one (1) Common Share purchase warrant (each whole warrant, a "Warrant"). Each Warrant will entitle the holder thereof to purchase one Common Share (each, a "Warrant Share") at a price of C\$0.40 for a period of 24 months from the date of issuance.

The Company may pay finder's fees to third parties sourced by finders. The FT Units will be offered by way of the "accredited investor" and "minimum amount investment" exemptions under National Instrument 45 - 106 - *Prospectus Exemptions* in all the provinces of Canada. The securities issuable pursuant to the sale of the FT Units will be subject to a statutory hold period in Canada ending on the date that is four months plus one day following the closing date of the Offering.

The gross proceeds from the sale of the FT Units will be used by the Company to incur eligible "Canadian exploration expenses" that will qualify as "flow-through mining expenditures" as such terms are defined in the *Income Tax Act* (Canada) (the "Qualifying Expenditures") related to the Company's projects in Canada. All Qualifying Expenditures will be renounced in favour of the subscribers of the FT Units effective December 31, 2025.

The Offering is subject to certain conditions including, but not limited to, receipt of all necessary approvals including the approval of the Canadian Securities Exchange.

About Greenridge Exploration Inc.

Greenridge Exploration Inc. (CSE: GXP | OTCQB: GXPLF | FRA: HW3) is a mineral exploration company dedicated to creating shareholder value through the acquisition, exploration, and development of critical mineral projects in Canada. The Company owns or has interests in 21 projects and additional claims covering approximately 281,100 hectares with considerable exposure to potential uranium, lithium, nickel, copper and gold discoveries. The Company is led by an experienced management team and board of directors with significant expertise in capital raising and advancing mining projects.

Greenridge has one of the largest uranium property portfolios in Canada consisting of 13 projects and additional prospective claims covering approximately 194,350 hectares. The Company has opportunities to realize value in a further 8 strategic metals projects which include lithium, nickel, gold, and copper exploration properties totalling approximately 86,750 hectares. Project highlights include:

- The Black Lake property, located in the NE Athabasca Basin, (40% Greenridge, 50.43% UEC, 8.57% Orano Canada) saw a 2004 discovery hole (BL-18) return 0.69% U₃O₈ over 4.4m.¹
- The Hook-Carter property (20% Greenridge, 80% Denison Mines Corp.) is strategically located in the SW Margin of the Athabasca Basin, sitting ~13km from NexGen Energy Ltd.'s Arrow deposit and its newly-discovered Patterson Corridor East, and ~20 km from Paladin Energy's Ltd.'s Triple R deposit.

- The Gibbons Creek property hosts high-grade uraniferous boulders located in 2013, with grades of up to 4.28% U₃O₈, and the McKenzie Lake project saw a 2023 prospecting program return three anomalous rock samples, which included analytical values of 844 ppm U-total (0.101% U₃O₈), 273 ppm U-total, and 259 ppm U-total.³
- The Nut Lake property located in the Thelon Basin includes historical drilling which intersected up to 9 ft of 0.69% U₃O₈ including 4.90% U₃O₈ over 1 ft from 8ft depth.⁴ In 2024, Greenridge's prospecting program located a float sample that returned 31.13% U₃O₈, sourced from the Tundra Showing.⁵
- The Firebird Nickel property has seen two drill programs (7 holes totaling 1,339 m), where hole FN20-002 intersected 23.8 m of 0.36% Ni and 0.09% Cu, including 10.6 m of 0.55% Ni and 0.14% Cu.⁶
- The Electra Nickel project 2022 drill program included results of 2,040 ppm Ni over 1 m and 1,260 ppm Ni over 3.5 m.⁷

The Company is involved with strategic partnerships, which include uranium projects being operated and advanced by Denison Mines Corp. and Uranium Energy Corp. The Company's management team, board of directors, and technical team brings significant expertise in capital raising and advancing mining projects and is poised to attract new investors and raise future capital.

Disclaimer for Forward-Looking Information

This news release includes certain "Forward-Looking Statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" under applicable Canadian securities laws. When used in this news release, the words "anticipate", "believe", "estimate", "expect", "target", "plan", "forecast", "may", "would", "could", "schedule" and similar words or expressions, identify forward-looking statements or information.

Forward-looking statements and forward-looking information relating to any future mineral production, liquidity, enhanced value and capital markets profile of Greenridge, future growth potential for Greenridge and its business, and future exploration plans are based on management's reasonable assumptions, estimates, expectations, analyses and opinions, which are based on management's experience and perception of trends, current conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances, but which may prove to be incorrect. Assumptions have been made regarding, among other things, the price of uranium, nickel, copper, gold, cobalt and other metals; costs of exploration and development; the estimated costs of development of exploration projects; Greenridge's ability to operate in a safe and effective manner and its ability to obtain financing on reasonable terms.

This news release contains "forward-looking information" within the meaning of the Canadian securities laws. Statements, other than statements of historical fact, may constitute forward looking information and include, without limitation, statements with respect to the Offering and the intended use of proceeds therefrom; the Company's objectives, goals or future plans; and the commencement of exploration programs in the future. With respect to the forward-looking information contained in this news release, the Company has made numerous assumptions regarding, among other things, the geological, metallurgical, engineering, financial

and economic advice that the Company has received is reliable and are based upon practices and methodologies which are consistent with industry standards. While the Company considers these assumptions to be reasonable, these assumptions are inherently subject to significant uncertainties and contingencies. Additionally, there are known and unknown risk factors which could cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information contained herein. Known risk factors include, among others: fluctuations in commodity prices and currency exchange rates; uncertainties relating to interpretation of well results and the geology, continuity and grade of copper, gold, tungsten, antimony and other metal deposits; uncertainty of estimates of capital and operating costs, recovery rates, production estimates and estimated economic return; the need for cooperation of government agencies in the exploration and development of properties and the issuance of required permits; the need to obtain additional financing to develop properties and uncertainty as to the availability and terms of future financing; the possibility of delay in exploration or development programs or in construction projects and uncertainty of meeting anticipated program milestones; uncertainty as to timely availability of permits and other governmental approvals; increased costs and restrictions on operations due to compliance with environmental and other requirements; increased costs affecting the metals industry and increased competition in the metals industry for properties, qualified personnel, and management. All forward-looking information herein is qualified in its entirety by this cautionary statement, and the Company disclaims any obligation to revise or update any such forward-looking information or to publicly announce the result of any revisions to any of the forward-looking information contained herein to reflect future results, events or developments, except as required by law.

The Canadian Securities Exchange (CSE) does not accept responsibility for the adequacy or accuracy of this release.
