

New Earth Resources Appoints Harrison Cookenboo to Advisory Board

04.12.2025 | [GlobeNewswire](#)

Vancouver, Dec. 04, 2025 - [New Earth Resources Corp.](#) (CSE: EATH) ("New Earth" or the "Company") is pleased to announce the appointment of Harrison Cookenboo, Ph.D., P.Geol., to its advisory board. Dr. Cookenboo is a professional geologist with more than 35 years of experience studying and evaluating geologic prospects, deposits and processes around the world.

Dr. Cookenboo completed his B.Sc. cum laude, in geology, at Duke University, in the United States of America, and then worked for 5 years in hydrocarbon exploration in the offshore Gulf of Mexico region. He then completed both his M.Sc. and Ph.D. in geology at the University of British Columbia, in Canada. He has broad exploration and research experience in precious, base and rare earth metals, diamonds, kimberlites, as well as sedimentological processes, including oil and gas.

Dr. Cookenboo has authored numerous reports for both academic journals and public companies, including more than 25 technical reports to the standards of National Instrument 43-101 - Standards of Disclosure for Mineral Projects. Dr. Cookenboo is a "Qualified Person" in exploration and evaluation of gold, silver, diamond, gemstone, and Ni-Cu-PGE deposits. He is currently registered as a professional geologist or geoscientist by the Association of Engineers and Geoscientists in British Columbia (EGBC), the Association of Professional Engineers and Geologists of Saskatchewan (APEGS) as well as The Professional Engineers & Geoscientists Newfoundland & Labrador (PEGNL) and a Fellow of the Geological Association of Canada.

About the Company

New Earth Resources Corp. is a Canadian-based mineral exploration company acquiring and developing advanced and early-stage exploration projects. Its flagship project is its 100% owned, past-producing Lucky Boy Uranium Property located in Gila County, Arizona, USA. Consisting of 14 Lode Claims, and spanning approximately 273 acres, the Lucky Boy Project covers a small open pit and underground workings that produced uranium in the 1950's, and again in the 1970's. In addition to Lucky Boy, included in the Company's uranium portfolio are three claims located in Saskatchewan, Canada covering 365 hectares.

The Company also has the option to acquire a 100% interest in 23 claims covering approximately 1,101 hectares in the Strange Lake area of Quebec, Canada, known as the "SL Project", which is prospective for rare earth elements. In addition, the Company has the option to acquire a 100% interest in the Red Wine Rare Earth Project, comprising 2 non-contiguous mineral claims located in Labrador, Canada covering approximately 1,575 hectares.

For further information, please refer to the Company's disclosure record on SEDAR+ (www.sedarplus.ca) or contact the Company by email at newearthresourcescorp@gmail.com.

Forward-Looking Information

Certain statements in this news release are forward-looking statements, including with respect to future plans, and other matters. Forward-looking statements consist of statements that are not purely historical,

including any statements regarding beliefs, plans, expectations or intentions regarding the future. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including but not limited to, business, economic and capital market conditions, the ability to manage operating expenses, and dependence on key personnel. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, anticipated costs, and the ability to achieve goals. Factors that could cause the actual results to differ materially from those in forward-looking statements include, the continued availability of capital and financing, litigation, failure of counterparties to perform their contractual obligations, loss of key employees and consultants, and general economic, market or business conditions. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information.

The forward-looking statements contained in this news release are made as of the date of this news release. Except as required by law, the Company disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The CSE has not reviewed, approved or disapproved the contents of this news release.
