

Golden Rapture Increases Land Position at Its Newly Acquired Northern Queen Mine Property Adjacent to NexGold Mining & Dryden Gold Corp

10.12.2025 | [Newsfile](#)

Edmonton, December 10, 2025 - [Golden Rapture Mining Corp.](#) (CSE: GLDR) is pleased to announce that it has staked an additional 7 claim units at its 100% owned Northern Queen Mine property located southeast of Dryden, Ontario.

The Northern Queen Mine land package now consists of 45 contiguous claim units covering roughly 2,000 acres. The property lies along the southern boundary of the NexGold Goliath Gold Deposit, with the eastern section of the property being located on the border of the Dryden Gold claims.

We are looking forward to exploring this underexplored property using modern methods and technologies. It has world-class infrastructure at our doorstep, including: Trans-Canada Highway, Ontario Provincial Hwy 72, CP Rail, Hydro and ready access to an experienced and available workforce in Dryden, Wabigoon and Sioux Lookout.

Richard Rivet said, "We are proud to have assembled a strong portfolio of four high-grade projects, encompassing a total of 24 historical underexplored mine shafts, which are also located near gold producers. With gold prices hitting record highs this year, we're excited to explore our highly-promising properties in what continues to be a very favourable market environment for gold explorers."

Forward-looking statements include predictions, projections, and forecasts and are often, but not always, identified by the use of words such as "seek", "anticipate", "believe", "plan", "estimate", "forecast", "expect", "potential", "project", "target", "schedule", "budget" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions and includes the negatives thereof. All statements other than statements of historical fact included in this release, including, without limitation, statements regarding the Company's planned exploration programs and drill programs and potential significance of results are forward-looking statements that involve various risks and uncertainties. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are based on a number of material factors and assumptions. Important factors that could cause actual results to differ materially from Company's expectations include actual exploration results, changes in project parameters as plans continue to be refined, results of future resource estimates, future metal prices, availability of capital, and financing on acceptable terms, general economic, market or business conditions,

uninsured risks, regulatory changes, defects in title, availability of personnel, materials, and equipment on a timely basis, accidents or equipment breakdowns, delays in receiving government approvals, unanticipated environmental impacts on operations and costs to remedy same, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators. Although the Company has attempted to identify important factors that could cause actual actions, events, or results to differ from those described in forward-looking statements, there may be other factors that cause such actions, events, or results to differ materially from those anticipated. There can be no assurance that forward-looking statements will prove to be accurate, and accordingly readers are cautioned not to place undue reliance on forward-looking statements.
