

Elysee Development Corp. Redeems \$1,685,000 of Convertible Debentures

17.12.2025 | [Newsfile](#)

[Elysee Development Corp.](#) (TSXV: ELC) (FSE: QLDN) (the "Company") announces that it provided notice to the holders of its 8% unsecured convertible debentures (the "Debentures") that it would prepay its obligations under the Debentures on December 16, 2025. As such, the Company has proceeded with such prepayment and paid an aggregate of \$2,106,250 plus accrued interest to such holders, settling Debentures with an aggregate principal amount of \$1,685,000.

As of today, the amount outstanding of the Debentures is \$265,000. As a result of this redemption, potential dilution from future conversion to equity has been dramatically reduced as well as the Company's annual interest expense moving forward. There will, however, be a one-time cash charge of \$421,250 on the Company's statement of earnings during the current period. After the redemption of these Debentures, Elysee's cash balance is now approximately \$5 million.

Corporate Update

The Company is also pleased to report that [Probe Gold Inc.](#), one of Elysee's top ten investments by value, has received a take-over offer from [Fresnillo Plc](#) at a premium of 39% compared to their closing stock price before the offer.

In addition, another one of our investments, [SolGold plc](#), has agreed to be taken over by Jiangxi Copper for US\$1.12 billion (28 GB pence per share), approximately four times the average price paid by Elysee.

Finally, the Company has also agreed to grant 250,000 incentive stock options to directors and officers of the company exercisable at a price of \$0.50 per share for a period of five years from the date of grant. These options will vest immediately and are subject to the policies of the TSX Venture Exchange.
