About Aero Energy Limited

Aero Energy Limited, following its successful merger with [Kraken Energy Corp.](#) ("Kraken"), has established a robust portfolio of uranium assets in North America. The company controls a district-scale land package in Saskatchewan's Athabasca Basin, including its Strike and Murmac projects, which collectively host dozens of shallow drill-ready targets on the north rim of the Athabasca Basin. These projects are guided by an award-winning technical team with a proven track record, responsible for major discoveries such as Gryphon, Arrow, and Triple-R. Additionally, Aero's portfolio includes Kraken's 100%-owned Apex Uranium Property, Nevada's largest past-producing uranium mine, and the Huber Hills Property, spanning 1,044 ha in Nevada and encompassing the historic Race Track open pit mine. This strategic merger combines Aero's extensive Canadian exploration assets with Kraken's high-grade U.S. properties, positioning Aero to unlock significant high-grade, unconformity-style uranium mineralization and capitalize on the growing global demand for uranium.
