

Cascade Copper Corp. Closes Final Tranche of Oversubscribed Private Placement

04:00 Uhr | [The Newswire](#)

[Cascade Copper Corp.](#) (CSE: "CASC") ("Cascade" or the "Company") is pleased to announce that it has closed the final tranche of its previously announced non-brokered private placement of units ("Units"), for aggregate gross proceeds of \$659,728 (CDN) (the "Offering"). The Offering has closed in two tranches.

The Offering consisted of the issuance of an aggregate of 8,462,500 Critical Minerals Flow-Through units (the "FT Unit") at a price of \$0.04 per FT Unit and 8,923,002 Non-Flow-Through Units (the "NFT Units") at a price of \$0.036 per NFT Unit. Each FT Unit and NFT Unit is comprised of one common share and one-half common share purchase warrant (the "Warrant"). Each full Warrant is exercisable into a common share at a price of \$0.05 for a period of 36 months from the closing of each tranche of the Offering (the "Closing Date").

The Offering is subject to all necessary regulatory approvals, including acceptance from the Canadian Securities Exchange. All securities issued in connection with the Offering will be subject to a four-month hold period from the closing date under applicable Canadian securities laws, in addition to such other restrictions as may apply under applicable securities laws of jurisdictions outside Canada.

Subscribers in the Offering included insider participation (the "Insiders"). The issuance of Units to the Insiders constitutes a related party transaction within the meaning of Multilateral Instrument 61-101 - Protection of Minority Securityholders in Special Transactions ("MI 61-101"). The Company is relying on the exemption from the valuation requirement and minority approval pursuant to subsection 5.5(a) and 5.7(1)(a) of MI 61-101, respectively, for the Insiders participation in the Offering, as the value of the Units subscribed for do not represent more than 25% of the Company's market capitalization, as determined in accordance with MI 61-101.

The gross proceeds from the sale of the FT Shares, which will qualify as a "flow-through share" (as defined in subsection 66(15) of the Income Tax Act (Canada)), will be used primarily to incur eligible Critical Mineral Canadian Exploration Expenses and will be used primarily to fund exploration programs at the Company's Projects in Ontario and British Columbia. The proceeds from the sale of the Non-Flow-Through shares will be used for the general working capital of the Company.

The Offering is subject to certain conditions, including, but not limited to, the receipt of all necessary approvals, including the approval of the Canadian Securities Exchange. The Offering is being made by way of private placement in Canada and such other jurisdictions as the Company may determine. Upon closing of this tranche, the Company will have 64,632,497 shares issued and outstanding.

The Company intends to renounce the Qualifying Expenditures to subscribers of Flow-Through Units for the fiscal year ending December 31, 2025, and to incur the necessary Qualifying Expenditures on or before December 31, 2026, in accordance with regulatory requirements.

About Cascade Copper

Cascade Copper is an exploration stage natural resource company engaged in the evaluation, acquisition, and exploration of copper based mineral resource properties. Cascade is focused on copper and gold, porphyry and mesothermal gold deposits in British Columbia and VMS and BIF copper, gold and silver style deposits in Ontario. Cascade's priority is to conduct exploration using modern technology that includes 3D inversion modelling of geophysics, LiDAR derived elevation models and AI enhanced predictive modelling from all historic and modern data inputs. Drilling is planned on several of its copper projects this year. Cascade has five projects, including the Copper Plateau Copper-Moly Project, the Centrefire Copper Project, the Rogers Creek Copper-Gold Project, Fire Mountain Copper-Gold Project and the Bendor Gold Project.
