About Bravada

Bravada is a long-established exploration and development company with a portfolio of high-quality properties in Nevada, one of the best mining jurisdictions in the world. Utilizing a modified joint-venture business model, Bravada has successfully identified and advanced properties with the potential to host high-margin deposits while successfully attracting partners to fund later stages of project development. Bravada's value is underpinned by a substantial gold and silver resource with a positive PEA study conducted in 2022 on a Phase I portion of the Wind Mountain deposit, and additional Phases are being evaluated for the project as part of an ongoing Pre-Feasibility Assessment. In addition, the Company has significant upside potential from possible new discoveries at its other exploration properties.

Since 2005, the Company has signed 33 earn-in joint-venture agreements for its properties with 20 publicly traded companies, as well as a similar number of property-acquisition agreements with private individuals. Bravada currently has eight projects in its portfolio, consisting of 756 claims for approximately 5,600 ha in two of Nevada's most prolific gold trends. Most of the projects host encouraging drill intercepts of gold and already have drill targets developed.
