Each Unit will be comprised of one common share in the capital of the Company (a "Share") and one-half of one common share purchase warrant (each whole warrant, a "Warrant"). The Company has granted to the Agent an option, exercisable up to 48 hours prior to the closing date, to purchase for resale up to an additional 15% of Units to be sold under the Offering at the Issue Price for additional gross proceeds of up to approximately C\$900,000.

The Company intends to use the net proceeds to conduct exploration work on its South Cariboo and Mineral Creek projects in British Columbia, as well as for general working capital purposes.

The Offering is expected to close on or about January 28, 2026 (the "Closing Date") and is subject to the Company receiving all necessary regulatory approvals.

The Units will be offered for sale to purchasers resident in Canada, pursuant to available prospectus exemptions under National Instrument 45-106 - Prospectus Exemptions or applicable law in Canada, and may be offered outside of Canada provided that no prospectus, registration statement or similar document is required to be filed in such jurisdiction and the Company does not thereafter become subject to continuous disclosure obligations in such jurisdictions. The Units issued pursuant to the Offering will be subject to a hold period of four months and a day under applicable Canadian securities laws.
