Forward-looking statements are subject to known and unknown risks, uncertainties, and other factors that may cause actual results to differ materially from those expressed or implied. These risks include, but are not limited to: the risk that regulatory approvals may not be obtained; that the market-making services to be provided by ITG may not achieve the anticipated impact on liquidity or trading activity; changes in market conditions; fluctuations in share price; regulatory or policy changes; and other risks inherent in the operation of a publicly listed exploration-stage company.

Although the Company believes the expectations reflected in such forward-looking statements are reasonable, there can be no assurance they will prove to be correct.
