VANCOUVER, Jan. 22, 2026 - [Rio Silver Inc.](#) ("Rio Silver" or the "Company") (TSX-V: RYO | OTC: RYOOF) is pleased to announce that it has submitted an application to trade on the U.S. OTCID market, a strategic step designed to broaden investor access and enhance visibility within the world's largest capital market.

In parallel, the Company confirms it will be attending the Vancouver Resource Investment Conference (VRIC) 2026, taking place January 25-26, 2026, from 8:30 a.m. to 6:00 p.m., at the Vancouver Convention Centre. Rio Silver welcomes current and prospective investors to visit the Company at Booth 829.

Opening Access to the World's Largest Capital Market

The Company's application to trade on the U.S. OTCID market is intended to make Rio Silver's shares more easily accessible to U.S. investors through a transparent U.S. trading venue, improving trading efficiency and expanding exposure to a broader institutional and retail audience. Upon approval, Rio Silver expects enhanced visibility among U.S.-based investors seeking direct exposure to silver-dominant exploration and development stories.

This initiative aligns with the Company's ongoing efforts to strengthen market awareness and investor engagement as it advances its silver assets in Peru through permitting, access, and execution-focused milestones, while establishing a U.S. market presence that supports broader participation in the Company's growth.

Management Commentary

"Opening access to the U.S. capital markets is a meaningful step in the evolution of [Rio Silver](#)," said Chris Verrico, President and Chief Executive Officer of Rio Silver. "The United States represents the largest and deepest pool of capital globally, and this application is about making it easier for investors to participate in our story as we progress. Why This Matters to Investors

For investors, access matters. Expanding into the U.S. OTC market lowers friction for U.S.-based capital, increases liquidity potential, and broadens the audience able to participate in Rio Silver's growth. Combined with active investor engagement at VRIC, this initiative strengthens market visibility at a time when the Company is advancing tangible, execution-driven milestones. As Rio Silver continues to progress its silver-dominant assets with a capital-efficient strategy, improved accessibility to the world's largest capital market positions the Company to attract a wider investor base and more accurately reflect project momentum.
