

# Nevada Organic Phosphate Announces DTC Eligibility Allowing for Electronic Settlement of Trades in the United States

22.01.2026 | [Newsfile](#)

Vancouver, January 22, 2026 - [Nevada Organic Phosphate Inc.](#) (CSE: NOP) (OTCQB: NOPFF) ("NOP" or the "Company"), a B.C. based leader in organic sedimentary phosphate exploration, is pleased to announce that its common shares are now eligible for electronic clearing and settlement in the United States through the Depository Trust Company ("DTC").

DTC eligibility is expected to simplify the process of trading and enhance liquidity of NOP shares in the United States. The Company's shares recently began trading on the OTCQB® Venture Market ("OTCQB") under the ticker symbol NOPFF.

DTC is a subsidiary of the Depository Trust & Clearing Corporation, a U.S. company that manages the electronic clearing and settlement of publicly traded companies. Securities that are eligible to be electronically cleared and settled through DTC are considered to be "DTC eligible". This electronic method of clearing securities speeds up the receipt of stock and cash, and thus accelerates the settlement process for investors and brokers, enabling the stock to be traded over a much wider selection of brokerage firms by coming into compliance with their requirements.

Nevada Organic Phosphate Inc. (CSE: NOP) (OTCQB: NOPFF)

The Company is a junior exploration company with an organic sedimentary raw rock phosphate bed, 6.6 kilometres long, in northeast Nevada. Additional applications extend the potential strike of rock phosphate to over 30 kilometres. This is believed to be the only known large-scale organic sedimentary phosphate project in North America. It is situated close to the main highway to Montello/Elko, Nevada, and near the rail head to California.
