

New Earth Resources Signs Service Agreement with APEX Geoscience

26.01.2026 | [GlobeNewswire](#)

Vancouver, Jan. 26, 2026 - [New Earth Resources Corp.](#) (CSE: EATH) ("New Earth" or the "Company") is pleased to announce that it has entered into a service agreement with APEX Geoscience Ltd. ("APEX"), an experienced and independent geoscience consulting firm specializing in professional geological consulting, exploration management and technical reporting.

Pursuant to the agreement, APEX will provide independent geological consulting and technical services to support New Earth's exploration and evaluation activities on an as-needed basis. The scope of work may include the review and interpretation of geological data, authoring technical reports, and guidance to assist the Company in advancing its mineral exploration projects, including those focused on critical and strategic minerals.

The Company believes that the engagement of APEX will enhance its technical capabilities and strengthen its exploration decision-making. APEX brings extensive experience across multiple commodity types and exploration stages, which management expects will add meaningful value as New Earth progresses its project portfolio.

"This service agreement underscores our commitment to working with experienced technical professionals and forms part of New Earth's broader exploration strategy to collaborate with established industry partners to efficiently evaluate and develop our mineral assets," stated Lawrence Hay, CEO of New Earth Resources Corp. "APEX's technical expertise and practical exploration experience align perfectly with our objectives."

About the Company

New Earth Resources Corp. is a Canadian-based mineral exploration company acquiring and developing advanced and early-stage exploration projects. Its flagship project is its 100% owned, past-producing Lucky Boy Uranium Property located in Gila County, Arizona, USA. Consisting of 14 Lode Claims, and spanning approximately 273 acres, the Lucky Boy Project covers a small open pit and underground workings that produced uranium in the 1950's, and again in the 1970's. In addition to Lucky Boy, included in the Company's uranium portfolio are three claims located in Saskatchewan, Canada covering 365 hectares.

The Company also has the option to acquire a 100% interest in 23 claims covering approximately 1,102 hectares in the Strange Lake area of Quebec, Canada, known as the "SL Project", which is prospective for rare earth elements. In addition, the Company has the option to acquire a 100% interest in the Red Wine Rare Earth Project, comprising 2 non-contiguous mineral claims located in Labrador, Canada covering approximately 1,575 hectares.

Forward-Looking Information

Certain statements in this news release are forward-looking statements, including with respect to future plans, and other matters. Forward-looking statements consist of statements that are not purely historical,

including any statements regarding beliefs, plans, expectations or intentions regarding the future. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including but not limited to, business, economic and capital market conditions, the ability to manage operating expenses, and dependence on key personnel. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, anticipated costs, and the ability to achieve goals. Factors that could cause the actual results to differ materially from those in forward-looking statements include, the continued availability of capital and financing, litigation, failure of counterparties to perform their contractual obligations, loss of key employees and consultants, and general economic, market or business conditions. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information.

The forward-looking statements contained in this news release are made as of the date of this news release. Except as required by law, the Company disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
