Mr. Halas is a Canadian mining engineer with more than 35 years of experience spanning mineral evaluation, project development, and operations across both open-pit and underground mining. Mr. Halas lived and worked in Suriname for over five years as IAMGOLD's Vice President, Commercial - South America, based in Paramaribo. In more recent public-company leadership roles, Mr. Halas served as Chief Operating Officer of [Global Atomic Corp.](#), where he played a key role in advancing the Dasa uranium project from PEA stage toward mine development on an accelerated timeline, and as Chief Operating Officer of [Lumina Gold Corp.](#), where he led feasibility-level advancement efforts at the Cangrejos gold-copper project. He continues to act as a senior technical advisor to mining issuers as they progress projects through development planning, permitting, and feasibility-level milestones.

Oscar Louzada, CEO of Sranan Gold, stated: "We are pleased to welcome Mr. Halas to the Board. Ron brings deep technical, operational, and transactional experience across the mining lifecycle, along with first-hand knowledge of Suriname and its gold industry. His track record of advancing projects from evaluation through development and executing value-realizing transactions will be valuable as we continue to advance our portfolio and pursue our strategy in Suriname."

Mr. Halas has no material relationship with the Company and qualifies as an independent director under applicable securities laws and Canadian Securities Exchange policies.
