Vancouver, January 29, 2026 - [Silver One Resources Inc.](#) (TSXV: SVE) (OTCQX: SLVRF) (FSE: BRK1) ("Silver One" or the "Company") is pleased to announce that it has closed its first tranche of its previously announced non-brokered private placement financing (see news release dated January 13, 2026 and January 14, 2026). The Company issued 53,583,000 units of the Company (the "Units") at a price of \$0.58 per Unit for aggregate gross proceeds of \$31,078,140 (the "Offering"). The Company expects to close the final tranche of \$922,200 shortly.

"Management is very pleased with the enthusiastic response to the Offering. Eric Sprott subscribed for approximately \$10 million of the \$32 million placement and now holds approximately 16.0% of the issued and outstanding shares. We also welcome other new institutions into the shareholder register. This is a strong show of support for our company and its silver-focused projects.

"The Company plans to move aggressively with more exploration drilling at all our projects, especially regarding the potential to increase the in-ground mineralization marginal to the two open-pits at Candelaria. We will be continuing our heap pad drilling, sampling and metallurgical studies in preparation for our upcoming pre-feasibility study," stated Greg Crowe, Chief Executive Officer of the Company.

Each Unit consists of one (1) common share ("Share") and one-half (1/2) of one common share purchase warrant (each whole share purchase warrant, a "Warrant"), with each whole Warrant entitling the holder to purchase one (1) additional common share (a "Warrant Share") at \$0.80 per Warrant Share for a period of three years from the date of issue.

The securities issued under the Offering to Canadian subscribers are not subject to a hold period in Canada as the Units were offered pursuant to Part 5A of National Instrument 45-106 - Prospectus Exemptions, as amended by Coordinated Blanket Order 45-935, Exemptions from Certain Conditions of the Listed Issuer Financing Exemption, to purchasers resident in Canada (other than the province of Quebec). Under the Offering, the Company paid a finders' a cash fee of \$1,779,464. No finder's warrants were issued.

The net proceeds of the Offering will be used on (i) its drilling program at the Candelaria Project; (ii) certain exploration and geophysics work at its mineral properties; (iii) metallurgical and environmental work at the Candelaria Project, (iv) preparing a pre-feasibility study on the Candelaria Project; (v) annual mineral claim payments to the Bureau of Land Management; (vi) exploration drilling at the Company's mineral properties and (vii) general working capital purposes.

#### About Silver One

Silver One is focused on the exploration and development of quality silver projects. The Company holds a 100%-interest in its flagship project, the past-producing Candelaria Mine located in Nevada. Potential reprocessing of silver from the historic leach pads at Candelaria provides an opportunity for possible near-term production. Additional opportunities lie in previously identified high-grade silver intercepts down-dip and potentially increasing the substantive silver mineralization along-strike from the two past-producing open pits.

The Company has staked 636 lode claims and entered into a Lease/Purchase Agreement to acquire five patented claims on its Cherokee project located in Lincoln County, Nevada, host to multiple silver-copper-gold vein systems, traced to date for over 11 km along-strike.

Silver One also owns a 100% interest in the Silver Phoenix Project. The Silver Phoenix Project is a very high-grade native silver prospect that lies within the "Arizona Silver Belt", immediately adjacent to the prolific copper producing area of Globe, Arizona.
