

InPlay Oil Corp. Announces Bond Offering

05.02.2026 | [CNW](#)

[InPlay Oil Corp.](#) (TSX: IPO) (OTCQX: IPOOF) ("InPlay" or the "Company") is pleased to announce the offering for sale of up to 550 million New Israeli Shekels ("NIS") (CAD\$241 million) senior unsecured bonds (the "Bonds") in Israel (the "Offering").

The Bonds will be direct senior unsecured obligations of InPlay due December 15, 2030, ranking equal with all other present and future senior unsecured indebtedness of InPlay, and will bear interest at a rate to be determined by auction (but not to exceed 6.23% per annum). To date, InPlay has accepted tenders from institutional investors for NIS 550 million of the Bonds, however the interest rate may be decreased as a result of the public offering of the Bonds.

"We appreciate the strong support and interest we received from over 40 institutional investors for this oversubscribed Offering," said Doug Bartole, President of InPlay. "This leverage neutral Offering further strengthens our already diversified financing sources while reducing our overall cost of capital. We would like to thank the Delek Group, our largest shareholder, for its support in introducing InPlay to the Israeli capital markets."

The Offering is anticipated to close on or about February 12, 2026 and remains subject to the satisfaction of certain conditions (see "Details of the Offering" below). InPlay has applied to list its common shares ("Common Shares") and the Bonds on the Tel Aviv Stock Exchange ("TASE").

InPlay intends to use the net proceeds from the Offering to repay the amount owing under the Company's \$110 million two-year amortizing term loan (CAD\$93.0 million as at December 31, 2025), temporarily reduce, on a non permanent basis, amounts drawn under the Company's approximately \$190 million revolving credit facility (CAD\$129.1 million as at December 31, 2025) (together with the term loan, the "Credit Facilities"), to pay transaction expenses and/or for general corporate purposes. The Company's Credit Facilities may be repaid in whole or in part at any time prior to maturity with no prepayment penalty.

The Offering strategically positions InPlay to continue developing and acquiring long-lived, low-decline properties with extensive drilling inventory and enhanced oil recovery potential as well as undeveloped lands.

Details of the Offering

The Bonds will be denominated in NIS and interest will be payable semi-annually. In addition, three amortization payments of 6% of the principal amount of the Bonds will be due on December 15th of 2027, 2028 and 2029 and the fourth and last amortization payment of the remaining 82% will be due on December 15, 2030. Payment of principal and interest will not be linked to CAD. InPlay may, subject to certain conditions, at any time no earlier than sixty (60) days after the Bonds are listed on the TASE and at its sole discretion, redeem the Bonds in a full or partial early redemption. InPlay intends to be proactive in hedging its exposure to fluctuations in the CAD to NIS exchange rate.

The sole financial covenants in the deed of trust in respect of the Bonds (the "Deed of Trust"), are as to the Company's minimum consolidated equity, its net debt to net capitalization and shareholders equity to balance sheet. Completion of the Offering is subject to, among other things, the approval of InPlay's lenders under the Credit Facilities as well as an amendment thereto to accommodate the Offering.

There is no certainty that the Offering will be completed nor on what timing or terms and conditions it may be completed on. Completion of the Offering is subject to, among other things, approval of the TASE, approval of the Israeli Securities Authority, publication of a final prospectus in respect of the Offering, closing of the

public tender of the Bonds and the listing of the Common Shares and Bonds on the TASE. This press release does not constitute an offer to sell, or a solicitation of an offer to buy, any security and shall not constitute an offer, solicitation or sale in any jurisdiction in which such an offer, solicitation, or sale would be unlawful.

This release is not an offer of securities of the Company for sale in the United States or Canada. The Bonds have not and will not be registered under the U.S. Securities Act of 1933, as amended, nor qualified for distribution in Canada. The Bonds may not be offered or sold to a resident of Canada or for the benefit of a resident of Canada nor may they be sold in the United States except as pursuant to an applicable exemption from its registration requirements. No public offering of securities is being made in the United States or Canada.
