

# Steadright Critical Minerals Inc. Update on Copper Valley Copper-Lead-Silver Project

09.02.2026 | [The Newswire](#)

[Steadright Critical Minerals Inc.](#) (CSE: SCM) ("Steadright" or the "Company"), a resource exploration company focused on advancing near-term production opportunities, reports that from February 2nd - 6th, 2026, members of the NSM Capital Sarl geological team from Morocco, together with a Canadian Earthworks contractor, were on site at the Copper Valley Copper Project to conduct field assessments in preparation for upcoming extraction activities.

The on-site team evaluated the existing road network to determine haulage suitability and required upgrades for the planned movement of mineralized stockpiles. In addition, several test pits were examined to verify material characteristics and confirm extraction logistics for the initial phase of testing operations.

This fieldwork follows Steadright's recent announcement that the former property owner, EMTF Sarl, had previously applied for a Mining License and Environmental Permit covering Exploration Permit No. 3843143, now being transferred into NSM Capital Sarl, a Morocco-based company. Steadright's Moroccan geological team expects receipt of the Mining License within the coming weeks. NSM Capital Sarl management has assumed responsibility for completing this process as expeditiously as possible.

Steadright holds a 75% interest in the common shares of NSM Capital Sarl through a shareholder agreement with Critical Foundation Metals Inc. (CFM), which holds the remaining 25%.
