

Colibri Resource Corp. Closes Debenture Units Offering

09.02.2026 | [Newsfile](#)

[Colibri Resource Corp.](#) (TSXV: CBI) ("Colibri" or the "Company") wishes to announce that, further to its news release of February 2, 2026, it has issued 115 convertible debenture units (the "Debenture Units") for gross proceeds of US\$115,000 (the "Debenture Offering"). The Debenture Units were acquired by two former debenture holders whose original debentures matured in August 2025. The Debenture Offering does not represent new money to the Company.

Each Debenture Unit consists of one (1) US\$1,000 principal amount 10% unsecured convertible debenture (the "Debenture") and 5,200 common share purchase warrants (the "Debenture Warrants"). Each Debenture will bear interest at the rate of 10% per annum, calculated in US dollars, from the date of issuance, payable in arrears quarterly and upon maturity or redemption. The Debentures will mature on February 9, 2028 (the "Maturity Date"). The principal amount of the Debentures are convertible into Common Shares, at the holder's option, at the rate C\$0.25 per Common Share (the "Conversion Price") any time prior to the Maturity Date. For purposes of the Conversion Price, the Debentures carry a fixed foreign exchange rate of C\$1.30 for each US\$1 of the principal amount. All interest accrued on the Debentures will be payable in cash only and there can be no conversion of the Debenture interest into Common Shares of the Company. Each Debenture Warrant will entitle the holder to acquire one Common Share at a price of C\$0.25 per Common Share for a period of 24 months following the closing of the offering.

This Debenture Offering has received TSXV consent. Securities issued under the Debenture Offering will be subject to a statutory four-month-and-one-day hold period. No finder's fees will be payable in connection with this placement.

No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein. This news release includes certain "forward-looking statements". These statements are based on information currently available to the Company and the Company provides no assurance that actual results will meet management's expectations. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to

the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results relating to, among other things, results of exploration, project development, reclamation and capital costs of the Company's mineral properties, and the Company's financial condition and prospects, could differ materially from those currently anticipated in such statements for many reasons such as: changes in general economic conditions and conditions in the financial markets; changes in demand and prices for minerals; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological and operational difficulties encountered in connection with the activities of the Company; and other matters discussed in this news release. This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. These and other factors should be considered carefully, and readers should not place undue reliance on the Company's forward-looking statements. The Company does not undertake to update any forward-looking statement that may be made from time to time by the Company or on its behalf, except in accordance with applicable securities laws.
