

Golden Rapture Increases Land Position at Its Northern Queen Mine Property Adjacent to NexGold Mining & Dryden Gold Corp

11.02.2026 | [Newsfile](#)

Edmonton, February 11, 2026 - [Golden Rapture Mining Corp.](#) (CSE: GLDR) is pleased to announce that it has acquired an additional 32 claim units by way of staking at its 100% owned Northern Queen Mine property located Southeast of Dryden, Ontario.

The Northern Queen Mine property is now comprised of 77 claim units totalling approximately 3,500 acres. The land package is strategically positioned along the southern boundary of NexGold's Goliath Gold Deposit, with the eastern portion of the property directly adjoining the Dryden Gold claims.

The claims cover roughly 9 kilometres of strike length of highly prospective geology. The area is influenced by the Wabigoon and Manitou-Dinorwic deformation zones, both of which are present on our claims and our neighbours. The historical records of the Northern Queen Mine are limited; however, archival Ontario Ministry of Energy and Mines files indicate that it produced gold and silver from 1897 to 1899.

We are looking forward to exploring this underexplored property and supporting the neighbouring communities. It has world-class infrastructure, including: Trans-Canada Highway, CP Rail, Hydro and ready access to an experienced and available workforce in Dryden and Wabigoon.

Richard Rivet said, "We are making plans to commence an exploration program on this Northern Queen Mine property this Spring, so please stay tuned for updates. With gold prices hitting record highs this year, we're excited to explore our highly-promising properties in what continues to be a very favourable market environment for gold explorers."
