

Torex Gold Reports Q4 and Full-Year 2025 Results

19.02.2026 | [Newsfile](#)

Record quarterly free cash flow generation has enabled full repayment of debt while continuing to return capital to shareholders

(All amounts expressed in U.S. dollars unless otherwise stated)

Toronto, February 18, 2026 - [Torex Gold Resources Inc.](#) (the "Company" or "Torex") (TSX: TXG) (OTCQX: TORXF) reports the Company's financial and operational results for the three months and year ended December 31, 2025. Torex will host a conference call tomorrow morning at 9:00 AM (ET) to discuss the results.

Jody Kuzenko, President & CEO of Torex, stated:

"2025 was a transformational and standout year for Torex. We delivered on several key aspects of our strategy - the culmination of years of hard work coming together - including completing the Media Luna Project, declaring commercial production, and ramping up to targeted mining and processing rates ahead of schedule; returning to strong free cash flow mid-year; and executing on our inaugural return of capital program. We also expanded our portfolio beyond Morelos through the acquisitions of Prime Mining and Reyna Silver, which provide a pipeline of assets to support our next phase of growth in Northern Mexico and Nevada. Most importantly, we achieved all of this safely, exiting the year with a lost-time injury frequency of 0.07 per million hours worked, marking one of our safest years ever.

"Q4 payable production of 114,844 gold equivalent ounces¹ ("oz AuEq") resulted in second half payable production of 233,878 oz AuEq¹, setting the pace we expect to continue through 2026 with Media Luna on track to achieve steady-state production of 7,500 tonnes per day ("tpd") by mid-year, if not earlier. The processing plant also continued to deliver, with throughput and gold and copper recoveries consistently achieving design levels. At ELG Underground, mining rates of 2,753 tpd for the year were right on plan and are expected to remain at or above this level through 2026. First production at Media Luna North (formerly EPO) remains on track for late 2026, which firmly establishes a minimum of at least 420,000 to 470,000 oz AuEq¹ produced annually through 2030 and likely well beyond as we continue to unlock the full potential of Morelos through drilling and exploration.

"The strong operational performance through the second half of the year, supported by a backdrop of record metal prices, drove exceptional financial results, including record annual revenue of \$1.3 billion and record annual adjusted EBITDA² of \$730 million. Although full-year all-in sustaining costs² of \$1,783/oz AuEq sold were above our guided range largely due to the impact of the higher gold price, we achieved an impressive record annual all-in sustaining costs margin² of 51%. Free cash flow² of \$166 million in the fourth quarter was also a new record, enabling us to pay our inaugural dividend of \$0.15 per share in December, repurchase more than 825,000 shares during the year and, at the end of January, fully repay the debt taken on to fund Media Luna.

"With a balance sheet that is in impeccable shape and our operations at Morelos firing on all cylinders, we're set to deliver another excellent year in 2026. With the Media Luna ramp up tracking ahead of schedule, work well underway on the preliminary economic assessment at Los Reyes, development of Media Luna North tracking to plan, and the upcoming transition of Andrew to President & CEO in June, Torex is well set up to embark on the next chapter of growth and value generation."

FULL YEAR 2025 HIGHLIGHTS

- Safety performance: The Company exited the year with a lost-time injury frequency ("LTIF") of 0.07 per million hours worked for both employees and contractors on a rolling 12-month basis.
- Annual payable production: Delivered annual payable production of 376,364 gold equivalent ounces ("oz AuEq¹"), including 315,678 ounces of gold ("oz Au"), 1,286 thousand ounces of silver ("koz Ag"), and 34.8 million pounds of copper ("mlb Cu"). At guidance metal prices, annual payable production was 389,857 oz AuEq¹, marginally lower than the annual payable production guidance of 400,000 to 450,000 oz AuEq¹.
- Record annual revenue: Annual gold equivalent ounces sold of 361,518 oz AuEq¹ at a record annual average realized gold price² of \$3,612 per oz AuEq¹, contributing to revenue of \$1,305.6 million.
- Robust all-in sustaining margins: Annual all-in sustaining costs of \$1,783 per oz AuEq sold¹ or \$1,630 per oz AuEq sold¹ at guided metal prices, relative to guidance of \$1,400 to \$1,600 per oz AuEq sold¹. All-in sustaining costs margin² of \$1,830 per oz AuEq sold¹, implying a record annual all-in sustaining costs margin² of 51%. Cost of sales was \$668.7 million or \$1,850 per oz AuEq sold¹. Costs during the year reflect the impact of the higher gold market prices on royalties, Mexican profit sharing and land access agreements, known as temporary occupation agreements ("TOAs"), with local communities.
- Strong profitability and record annual adjusted EBITDA²: Reported net income of \$403.4 million, or earnings of \$4.58 per share on a basic basis and \$4.53 per share on a diluted basis. Adjusted net earnings² of \$350.1 million, or \$3.98 per share on a basic basis and \$3.93 per share on a diluted basis. Generated a record annual EBITDA² of \$697.9 million and a record annual adjusted EBITDA² of \$730.3 million.
- Strong cash flow generation: Net cash generated from operating activities totalled \$489.0 million and \$530.2 million before changes in non-cash operating working capital. Net cash generated from operating activities (including changes in non-cash operating working capital) of \$489.0 million includes income taxes paid of \$204.8 million. Positive free cash flow² of \$107.3 million is net of cash outlays for capital expenditures, lease payments and interest, including borrowing costs capitalized.
- Strong financial liquidity: The Company has a credit facility of \$350.0 million with a maturity date in June 2029 and a \$200.0 million accordion feature that is available at the discretion of the lenders. The year closed with \$426.3 million in available liquidity², including \$119.5 million in cash and \$306.8 million available on the \$350.0 million credit facility, net of borrowings of \$30.0 million and letters of credit outstanding of \$13.2 million. In January 2026, the Company fully repaid the remaining \$30.0 million of borrowings on the credit facility.
- Media Luna Project completion: In late March, the tie-in period was completed at the processing plant and the Company achieved first production of copper concentrate, with commercial production at Media Luna declared on May 1, 2025. During the year \$145.9 million of non-sustaining capital expenditures were incurred related to Media Luna, including \$55.1 million following the declaration of commercial production primarily related to the construction of the paste plant and underground paste distribution system, tailings feed supply system, and underground material handling systems.
- Media Luna North Underground Project: During the year, \$25.6 million of non-sustaining capital expenditures were incurred relating to Media Luna North, including \$8.5 million of feasibility study costs and an additional \$8.8 million of direct project costs. Development of the main access ramp at Media Luna North continued to track well. The Media Luna North internal feasibility study was completed including all associated infrastructure engineering, as well as geotechnical, hydrogeological, geochemistry, metallurgical evaluations, final mine design, sequence, and integrated mine scheduling with Media Luna. First production at Media Luna North is targeted for late 2026 with the declaration of commercial production shortly thereafter.
- Exploration and Drilling Activities: In December, the Company announced results from the drilling program at Media Luna West³. Drilling results support the Company's strategy to target near-mine opportunities in the Media Luna Cluster in order to further enhance and extend the production profile of the Morelos Complex. Based on these results and ongoing modelling work, the Company expects to declare an inaugural Inferred Resource with the Company's annual mineral reserves and resources update in March 2026. The Company plans to invest a record \$77 million in exploration and drilling in 2026 including \$43 million at Morelos. Drilling at Los Reyes remains suspended given the security environment within the State of Sinaloa and will resume once the Company is fully satisfied its employees and contractors can safely access and operate at site.

- Executing on the strategy to create a diversified, Americas-focused precious metals producer: The acquisitions of Reyna Silver and Prime Mining enhance medium and long-term growth potential:
 - Reyna Silver: In August, the Company completed the acquisition of Reyna Silver⁴ for total cash consideration of \$27.4 million. The acquisition provides Torex with 100% ownership in two exciting exploration properties in Chihuahua, Mexico (Batopilas and Guigui), as well as exposure to two highly prospective properties in Nevada (Gryphon and Medicine Springs) via option agreements. In January 2026, the Company paid \$0.3 million to the Medicine Springs optionors, and exercised its option to acquire a 100% interest in the Medicine Springs project.
 - Prime Mining: In October, the Company completed the share acquisition of Prime Mining⁵ for total consideration of \$436.2 million. As a result of the transaction, Torex acquired a 100% interest in the Los Reyes project located in Sinaloa, Mexico.
- CEO Transition: On February 4, 2026, the Company announced that Jody Kuzenko, President and Chief Executive Officer, will retire from the Company immediately following the Annual and Special Shareholder Meeting on June 17, 2026. As part of the Company's long-term succession planning, Andrew Snowden, Chief Financial Officer, will assume the role of President and CEO at that time.

Q4 2025 HIGHLIGHTS

- Safety performance: The Company recorded no lost-time injuries during the quarter.
- Payable production: Delivered payable production of 114,844 oz AuEq¹, including 93,335 oz Au, 454 koz Ag, and 12.6 mlb Cu.
- Gold equivalent sold: Sold 105,946 oz AuEq¹ at a record quarterly average realized gold price² of \$4,393 per oz AuEq¹, contributing to quarterly revenue of \$465.3 million.
- All-in sustaining costs²: All-in sustaining costs of \$1,905 per oz AuEq sold¹. All-in sustaining costs margin² were \$2,488 per oz AuEq sold¹, implying a record all-in sustaining costs margin² of 57%. Cost of sales was \$214.7 million or \$2,027 per oz AuEq sold¹ in the quarter.
- Net income and adjusted net earnings²: Reported net income of \$166.8 million or earnings of \$1.78 per share on a basic basis and \$1.76 per share on a diluted basis. Adjusted net earnings of \$167.0 million or \$1.78 per share on a basic basis and \$1.76 per share on a diluted basis.
- EBITDA² and adjusted EBITDA²: Generated EBITDA of \$260.4 million and adjusted EBITDA of \$281.5 million.
- Cash flow generation: Net cash generated from operating activities totalled \$244.3 million and \$248.6 million before changes in non-cash operating working capital includes income taxes paid of \$38.0 million and record quarterly free cash flow² of \$165.6 million.
- Media Luna North Underground Project: During the fourth quarter of 2025, \$10.2 million was invested in the project, including \$1.4 million of feasibility study costs and an additional \$5.7 million of direct project costs inclusive of the development of the main access ramp which continued to track well with 1,135 m completed.
- Q1 2026 dividend: the Company has declared a quarterly dividend of C\$0.15 per Torex Share payable on March 19, 2026 to shareholders of record on March 5, 2026.

RETURN OF CAPITAL TO SHAREHOLDERS

During H2 2025, the Company executed an initial return of capital program consisting of a quarterly dividend of C\$0.15 per common share ("Torex Share") and share repurchases through the Company's normal course issuer bid ("NCIB").

The Company paid an inaugural dividend to shareholders totaling \$10.2 million (C\$14.4 million) on December 4, 2025. For the first quarter of 2026, the Company has declared a quarterly dividend of C\$0.15 per Torex Share payable on March 19, 2026 to shareholders of record on March 5, 2026.

With respect to share repurchases, the Company repurchased 825,769 Torex Shares during the year for \$33.9 million (C\$47.1 million) at an average price per share of \$40.96 (C\$57.00) under the NCIB. Since the start of 2026, Torex has repurchased an additional 411,405 Torex Shares at an average share price of C\$66.69 per share.

Additionally, the Company has entered into an automatic share purchase plan ("ASPP") with its designated broker to facilitate the purchase of Torex Shares under its previously announced NCIB at times when the Company would ordinarily not be permitted to purchase its shares due to regulatory restrictions and ordinary course of business self-imposed blackout periods.

Pursuant to the ASPP, prior to entering into a blackout period, the Company may, but is not required to, instruct the designated broker to make purchases under the NCIB in accordance with the terms of the ASPP. Such purchases will be determined by the designated broker in its sole discretion based on parameters established by the Company prior to the blackout period in accordance with the rules of the TSX, applicable securities laws and the terms of the ASPP.

Outside of the pre-determined blackout periods, Torex Shares may be purchased under the NCIB based on the discretion of the Company's management, in compliance with the rules of the TSX and applicable securities laws. All repurchases made under the ASPP will be included in computing the number of Torex Shares purchased under the NCIB.

CONFERENCE CALL AND WEBCAST DETAILS

The Company will host a conference call tomorrow at 9:00 AM (ET) where senior management will discuss the fourth quarter and year-end operating and financial results. For expedited access to the conference call, registration is open to obtain an access code in advance, which will allow participants to join the call directly at the scheduled time. Alternatively, dial-in details are as follows:

- Toronto local or International: 1-647-846-8914
- Toll-Free (North America): 1-833-752-3842

A live webcast and replay of the conference call will be available on the Company's website at <https://torexgold.com/investors/upcoming-events/>. The webcast will be archived on the Company's website.

FOOTNOTES

1. Gold equivalent ounces produced and sold include production of silver and copper converted to a gold equivalent based on a ratio of the average market prices for each commodity sold in the period. For Q3 2025, market prices averaged \$3,457/oz gold, \$39.40/oz silver, and \$4.44/lb copper, and AuEq (oz) = Au (oz) + 1,000 * (39.40 / 3,457) x Ag (koz) + 1,000,000 x (4.44 / 3,457) x Cu (mlb). For Q4 2025, market prices averaged \$4,135/oz gold, \$54.73/oz silver, and \$5.03/lb copper, and AuEq (oz) = Au (oz) + 1,000 * (54.73 / 4,135) x Ag (koz) + 1,000,000 x (5.03 / 4,135) x Cu (mlb). For the year ended December 31, 2025, market prices averaged \$3,432/oz gold, \$40.03/oz silver, and \$4.51/lb copper, and AuEq (oz) = Au (oz) + 1,000 * (40.03 / 3,432) x Ag (koz) + 1,000,000 x (4.51 / 3,432) x Cu (mlb). Guidance for 2025 assumed metal prices of \$2,500/oz gold, \$28/oz silver, and \$4.30/lb copper, and AuEq (oz) = Au (oz) + 1,000 * (28 / 2,500) x Ag (koz) + 1,000,000 x (4.30 / 2,500) x Cu (mlb).

1. Includes provisional price adjustments on sales of copper concentrate and precipitate.

2. This amount excludes a loss of \$9.4 million, loss of \$10.7 million and loss of \$6.8 million for the three months ended December 31, 2025, September 30, 2025, and December 31, 2024, respectively, and a loss of \$33.9 million and loss of \$15.7 million for the years ended December 31, 2025 and December 31, 2024, respectively, in relation to the remeasurement of share-based payments. This amount also excludes corporate depreciation and amortization expenses totalling \$nil, \$0.1 million and \$0.2 million for the three months ended December 31, 2025, September 30, 2025, and December 31, 2024, respectively, \$0.2 million and \$0.3 million for the years ended December 31, 2025 and December 31, 2024, respectively, within general and administrative costs. Included in general and administrative costs is share-based compensation expense in the amount of \$2.1 million or \$24/oz (\$20/oz AuEq) for the three months ended December 31, 2025, \$2.0 million or \$21/oz (\$17/oz AuEq) for the three months ended September 30, 2025, \$1.6 million or \$15/oz (\$14/oz AuEq) for the three months ended December 31, 2024, \$8.2 million or \$27/oz (\$23/oz AuEq) for the year ended December 31, 2025 and \$7.1 million or \$16/oz (\$15/oz AuEq) for the year ended December 31, 2024. This amount excludes other expenses totalling \$nil, \$nil and \$1.4 million for the three months ended December 31, 2025, September 30, 2025, and December 31, 2024, respectively, and \$nil and \$7.1 million for the years ended December 31, 2025 and December 31, 2024, respectively.
3. Sustaining capital expenditures includes lease payments (principal and interest) of \$7.5 million, \$7.1 million and \$0.8 million for the three months ended December 31, 2025, September 30, 2025, and December 31, 2024, respectively, and \$20.2 million and \$3.6 million for the years ended December 31, 2025 and December 31, 2024, respectively.
4. Gold equivalent ounces produced and sold include production of silver and copper converted to a gold equivalent based on a ratio of the average market prices for each commodity sold in the period. Refer to "Gold Equivalent Reporting" section of the Company's MD&A for the year ended December 31, 2025, dated February 18, 2026 for the relevant average market prices by commodity, available on Torex's website (www.torexgold.com) and under the Company's SEDAR+ profile (www.sedarplus.ca).

Table 3: Reconciliation of Sustaining and Non-Sustaining Capital Expenditures to Additions to Property, Plant and Equipment

In millions of U.S. dollars	Three Months Ended			Year Ended	
	Dec 31, 2025	Sep 30, 2025	Dec 31, 2024	Dec 31, 2025	Dec 31, 2024
Sustaining	\$ 24.6	25.0	10.8	87.0	57.6
Lease Payments (Sustaining)	\$ 7.5	7.1	0.8	20.2	3.6
Capitalized Stripping (Sustaining)	\$ -	-	-	-	1.4
Total Sustaining	\$ 32.1	32.1	11.6	107.2	62.6
Non-sustaining					
Media Luna Project ^{1,2}	\$ 15.3	26.2	100.5	145.9	449.0
Media Luna North Project	\$ 10.2	6.9	0.6	25.6	0.6

Working Capital Changes and Other	\$ 9.7	(10.0)	12.7	66.0	31.5
Capital expenditures ³	\$ 67.4	60.9	127.8	352.6	553.7

1. Non-sustaining capital expenditures includes lease payments (principal and interest) of \$nil, \$nil and \$2.1 million for the three months ended December 31, 2025, September 30, 2025, and December 31, 2024, respectively, and \$5.1 million and \$5.0 million for the years ended December 31, 2025 and December 31, 2024, respectively.
2. This amount includes a realized gain (or an increase in the capitalized expenditures) of \$nil, \$nil and loss of \$0.1 million for the three months ended December 31, 2025, September 30, 2025, and December 31, 2024, respectively, and \$nil and gain of \$1.3 million for the years ended December 31, 2025 and December 31, 2024, respectively, in relation to the settlement of foreign exchange zero cost collars that were entered into to manage the capital expenditure risk related to a further strengthening of the Mexican peso.
3. The amount of cash expended on additions to property, plant and equipment in the period as reported in the Consolidated Statements of Cash Flows.

Table 4: Reconciliation of Average Realized Gold Price to Revenue

In millions of U.S. dollars, unless otherwise noted		Three Months Ended			Year Ended	
		Dec 31, 2025	Sep 30, 2025	Dec 31, 2024	Dec 31, 2025	Dec 31, 2024

1. Media Luna underground tonnes mined and mining costs for 2025 are reported post the declaration of commercial production on May 1, 2025.

ABOUT TOREX GOLD RESOURCES INC.

Torex Gold Resources Inc. is a Canadian mining company engaged in the exploration, development, and production of gold, copper, and silver from its flagship Morelos Complex in Guerrero, Mexico. The Company also owns the Los Reyes gold-silver project in Sinaloa, Mexico and recently acquired a portfolio of early-stage exploration properties, including the Batopilas and Guigui projects in Chihuahua, Mexico, and the Gryphon and Medicine Springs projects in Nevada, USA.

The Company's key strategic objectives are: optimize Morelos production and costs; disciplined growth and capital allocation; grow reserves and resources; project delivery excellence; retain and attract best industry talent; and be an industry leader in responsible mining. In addition to realizing the full potential of the Morelos Property, the Company continues to seek opportunities to acquire assets that enable diversification and deliver value to shareholders.

QUALIFIED PERSONS

The technical and scientific information in this press release pertaining to metal production has been reviewed and approved by Miguel Pimentel P.Eng., Vice President, Metallurgy and Process Engineering of the Company, who is a qualified person under National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101").

The technical and scientific information in this press release pertaining to production guidance has been reviewed and approved by Johannes (Gertjan) Bekkers, P.Eng., Vice President, Mines Technical Services of the Company, who is a qualified person under NI 43-101.

CAUTIONARY NOTES ON FORWARD-LOOKING INFORMATION

This press release contains "forward-looking statements" and "forward-looking information" (collectively, "Forward-Looking Information") within the meaning of applicable Canadian securities legislation. Forward-Looking Information includes, but is not limited to, information with respect to the Company's medium and long-term growth potential including the next phase of growth in Northern Mexico and Nevada; payable production and mining rates in 2026; timelines for first production and the declaration of commercial production at Media Luna North; annual gold equivalent production through 2030 and beyond; the upcoming President and CEO transition; the Company's strategy to target near-mine opportunities in the Media Luna Cluster in order to further enhance and extend the production profile of the Morelos Complex; the declaration of an inaugural Inferred Resource in March 2026 based on drilling results and modelling work at Media Luna West; and the potential purchases of Torex Shares under the NCIB. Forward-Looking Information also includes the Company's key strategic objectives: optimize Morelos production and costs; disciplined growth and capital allocation; grow reserves and resources; project delivery excellence; retain and attract best industry talent; and be an industry leader in responsible mining. Generally, Forward-Looking Information and statements can be identified by the use of forward-looking terminology such as "forecast," "plans," "expects," or "does not expect," "is expected," "strategic," "to be" or variations of such words and phrases or statements that certain actions, events or results "will", "may," "could," "would," "might," "on track," or "well positioned to" occur. Forward-Looking Information is subject to known and unknown risks, uncertainties and other

factors that may cause the actual results, level of activity, performance or achievements of the company to be materially different from those expressed or implied by such Forward-Looking Information, including, without limitation, risks and uncertainties identified in the technical report (the "Technical Report") released on March 31, 2022, entitled "NI 43-101 Technical Report ELG Mine Complex Life Of Mine Plan and Media Luna Feasibility Study", which has an effective date of March 16, 2022, the Company's annual information form ("AIF") for the year ended December 31, 2024, and management's discussion and analysis ("MD&A") for the year ended December 31, 2025 or other unknown but potentially significant impacts. Forward-Looking Information and statements are based on the assumptions discussed in the Technical Report, AIF and MD&A and such other reasonable assumptions, estimates, analysis and opinions of management made in light of its experience and perception of trends, current conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances at the date such statements are made, including without limitation, that political and legal developments will be consistent with current expectations. Although the company has attempted to identify important factors that could cause actual results to differ materially from those contained in the Forward-Looking Information, there may be other factors that cause results not to be as anticipated. There can be no assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on Forward-Looking Information. The Company does not undertake to update any Forward-Looking Information, whether as a result of new information or future events or otherwise, except as may be required by applicable securities laws. The Technical Report, MD&A and AIF are filed on SEDAR+ at www.sedarplus.ca and available on the Company's website at www.torexgold.com.
