The TSX Venture 50&TRADE; ranking is based on three equally weighted performance indicators: annual share price appreciation, market capitalization growth, and Canadian consolidated trading activity.

As of December 31, 2025, Argenta delivered outstanding performance across each ranking criterion:

- 208% share price appreciation
- 371% market cap growth
- Substantial increase in trading liquidity

This recognition reflects key milestones achieved during the Company's first year of operations, including exceptional high-grade silver intercepts within and proximal to the Yaxtché Silver Deposit, new discoveries across broader target areas at our 100%-owned El Quevar Project, and strong support from both retail and institutional investors.

"Being named to the TSX Venture 50&TRADE; is a significant honour and a clear reflection of Argenta's strong momentum in our first year," said Joaquín Marías, Chief Executive Officer of Argenta Silver Corp. "Our 208% share price appreciation and 371% market capitalization growth in 2025 highlight the strength of our strategy, operational performance, and the continued confidence of our shareholders. We remain focused on advancing El Quevar by delivering discoveries that help fuel the energy transition, and creating sustainable long-term value aligned with rising global demand for critical minerals."

The TSX Venture 50 highlights standout growth companies from across Canada and internationally that are driving innovation and delivering strong capital markets performance. Companies ranked on the list met stringent eligibility criteria and demonstrated exceptional performance over the 2025 calendar year.
