In connection with the Financing, the Corporation paid finders fees of \$30,450 cash and 76,125 non-transferable finder's warrants. Each finder's warrant will entitle the holder to acquire one Common Share at a price of \$0.40 for a period of twelve months from issuance.

(2) Original estimate per the Corporation's December 19, 2025 Prospectus - "Kena Gold-Copper Property - Recommendations - Project"

(3) The Corporation has fully completed its proposed \$443,000 "Kena Gold-Copper Property -

(5) As a result of the availability of proceeds from the Financing, the Corporation intends to increase spending on investor awareness programs and has signed short-term agreements three companies to provide market making and investor awareness programs for an estimated incremental cost of \$480,000. In addition, the Corporation has initiated a listing on the OTC Markets US exchange for an estimated additional cost of \$38,000.

(6) The Corporation plans to utilize unallocated working capital for: (i) follow up exploration work if warranted based on results from its planned exploration programs; (ii) the identification, acquisition and advancement of potential new mineral project opportunities; and (iii) a cash reserve for the Corporation. As a result of the availability of proceeds from the Financing, the Corporation intends to allocate an additional \$159,000 to working capital.

The Corporation has elected to allocate a significant portion of its financial resources to investor awareness initiatives in Europe, as a substantial number of participants in the recent private placement are based in Germany and elsewhere in the region. Following its Frankfurt listing, the Corporation believes it is appropriate to support shareholder communication, market awareness and liquidity in those jurisdictions in connection with its dual listings.
