

Trifecta Gold Options Yuge Project to Nortec Minerals

25.02.2026 | [ACCESS Newswire](#)

VANCOUVER, February 25, 2026 - [Trifecta Gold Ltd.](#) (TSXV:TG)(OTCQB:TRRFF) ("Trifecta" or the "Company") is pleased to announce it has granted [Nortec Minerals Corp.](#) ("Nortec") the option to earn a 100% interest in its Yuge gold project (the "Yuge"), located in northern Nevada.

Following an initial payment of \$25,000 to secure the option, Nortec can earn a 100% interest in the Yuge by making escalating annual payments to Trifecta totalling \$2,000,000 over 5 years. The Yuge will remain subject to an existing underlying royalty and defined resource payments owed to [Silver Range Resources Ltd.](#), the previous property owner. The initial payment to Trifecta and up to 50% of the annual payments can be satisfied by issuing to Trifecta shares of Nortec valued at the 10-day volume weighted average price. The transaction is subject to approval from the TSX Venture Exchange.

Trifecta is pleased to monetize a non-core property holding while it focuses on discovering new gold deposits within the Yukon's Tombstone Gold Belt. Trifecta drilled 1.02 g/t gold over 37 metres in its first ever drill hole at the Rye Project in 2025 and the Company is currently planning a follow-up program for summer 2026. Gold results at the Rye Project correlate strongly with bismuth, tellurium and tungsten, providing additional evidence that Rye hosts a Reduced Intrusion Related Gold System.
