

# Pampa Energía Announces Fiscal Year and Fourth Quarter 2025 Results

02.03.2026 | [ACCESS Newswire](#)

BUENOS AIRES, March 2, 2026 - Pampa Energía S.A. (NYSE:PAM)(Buenos Aires Stock Exchange:PAMP), an independent company with active participation in Argentine oil, gas and electricity, announces the results for the fiscal year and quarter ended on December 31, 2025.

Pampa reports its financial information in US\$, its functional currency. For local currency equivalents, transactional exchange rate ('FX') is applied. However, Transener and Transportadora de Gas del Sur's ('TGS') figures are adjusted for inflation as of December 31, 2025, and converted into US\$ using the period-end FX. Previously reported figures remained unchanged.

## Fourth quarter 2025 ('Q4 25') main results<sup>1</sup>

Sales recorded US\$507 million in Q4 25<sup>2</sup>, a 16% year-on-year increase, driven by higher crude oil production at Rincón de Aranda, improved spot prices under the new Wholesale Electricity Market ('WEM') framework for our thermal units and higher gas exports to Chile, offset by lower income from the styrenics business and from units under Power Purchase Agreements ('PPAs').

Q4 25 was market by sustained shale oil growth at Rincón de Aranda and strong performance across our thermal power plants.

Pampa's main operational KPIs	Q4 25	Q4 24	Variation
Oil and gas Production (kboed)	61.6	46.6	+32 %
Gas production (kboepd)	57.6	51.2	+10 %
Crude oil production (kbpd)	4.0	1.1	+355 %
Average gas price (US\$/MBTU)	2.9	2.8	+4 %
Average oil price (US\$/bbl)*	66.9	74.2	-10 %
Power Generation (GWh)	4,797	4,657	+3 %

Gross margin (US\$/MWh)	22.8	+16	%
Petrochemicals			
Volume sold (k129 ton)	121	+7	%
Average price (US\$/ton)	1,017	-13	%

Note: \* Price net of export duty and quality/logistic discounts.

Adjusted EBITDA<sup>3</sup> reached US\$230 million in Q4 25, a 26% year-on-year increase, mainly reflecting the growing contribution from Rincón de Aranda, the impact of the WEM's new framework in power generation, higher gas exports and stronger reforming margins. These effects were partially offset by lower contributions from PPAs and by the deconsolidation of Oleoducto de Crudos Pesados S.A. ('OCP Ecuador') within the holding, transport, and others.

Net income attributable to shareholders was US\$161 million, 52% higher than Q4 24, driven by stronger operating margins and the recognition of a non-cash deferred income tax credit, as inflation outpaced the AR\$ devaluation during Q4 25, offset by weaker net financial results.

<sup>1</sup>The information is based on financial statements ('FS') prepared according to International Financial Reporting Standards ('IFRS') in force in Argentina.

<sup>2</sup>Sales from the affiliates CTBSA, Transener and TGS are excluded, shown as 'Results for participation in joint businesses and associates.'

<sup>3</sup>Consolidated adjusted EBITDA represents the flows before financial items, income tax, depreciations and amortizations, extraordinary and non-cash income and expense, equity income, and includes affiliates' EBITDA at our ownership. Further information on section 3.1.

Net debt decreased to US\$801 million as of December 2025, compared to US\$874 million as of September 2025, reflecting solid free cash flow generation and reduced collateral requirements.
