

Star Copper Corp. Announces Upsize To Flow Through Financing

03.03.2026 | [ACCESS Newswire](#)

\$2,000,000 Charity Flow-Through Units and \$6,000,000 Traditional Flow-Through Shares

[Star Copper Corp.](#) (CSE:STCU) (OTCQX:STCUF) (FWB:SOP) ("Star Copper" or the "Company"), a critical mineral exploration and development company, is pleased to announce, further to its news release dated February 17, 2026, that it has upsized and amended the terms of its previously announced non-brokered private placement of flow-through shares for gross proceeds of up to C\$5,000,000 (the "FT Share Offering").

The Company will additionally offer (the "Upsize"): (i) 800,000 flow-through shares in the capital of the Company ("FT Shares") at a price of C\$1.25 per share pursuant to the FT Share Offering for aggregate gross proceeds of C\$1,000,000; and (ii) 1,156,069 flow-through units of the Company (each, a "FT Unit") to charitable purchasers at a price of C\$1.73 per FT Unit for aggregate gross proceeds of up to C\$2,000,000 (the "FT Unit Offering"; together with the FT Share Offering, the "Offering").

Each FT Unit will be comprised of one FT Share issued as a "flow-through share", as defined in subsection 66(15) of the Income Tax Act (Canada) (the "Tax Act") and one transferable common share purchase warrant (a "Warrant"). Each Warrant will also qualify as a "flow-through share" (as defined in subsection 66(15) of the Tax Act). Each Warrant will entitle the holder to purchase one non-flow-through common share of the Company (each a "Warrant Share") for a period of two years at a price of C\$1.75 per Warrant Share.

The FT Unit Offering is being conducted concurrently with and in addition to the Company's FT Share Offering, which will proceed as announced on February 17, 2026 save for the Upsize.

Use of Proceeds

The gross proceeds from the Offering will be used to incur "Canadian exploration expenses" that are "flow-through critical mineral mining expenditures", within the meaning of the Tax Act, on the Company's flagship Star Project in British Columbia. The Company expects the flow-through funds to directly support an aggressive 2026 drill program, including expanded step-out drilling, deeper testing of priority targets, and follow-up drilling guided by ongoing three-dimensional geological modeling and planned deep-penetrating 3D geophysics.

Offering Terms and Closing

The Company anticipates closing the Offering on or about March 20, 2026 or such other date as the Company may determine, subject to the satisfaction of customary closing conditions, including the receipt of all necessary regulatory approvals. The Company may pay finder's fees in connection with the Offering in accordance with applicable securities laws and the policies of the CSE. All securities issued pursuant to the Offering will be subject to a statutory hold period in accordance with applicable Canadian securities laws and the policies of the CSE.

This news release does not constitute an offer to sell or a solicitation of an offer to sell any securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

On Behalf of the Board of Directors

About Star Copper Corp. (CSE:STCU)(OTCQX:STCUF)(FWB:SOP / WKN A416ME)

Star Copper Corp. is an exploration and development company focused on developing high-potential copper projects in mining-friendly jurisdictions. The Company aims to advance its 100%-owned Star Project in British Columbia's prolific Golden Triangle and Sheslay District (watch our videos <https://starcopper.com/media/>). The Star Project hosts multiple copper-gold porphyry-style targets, including Star Main, Star North, and Copper Creek. Significant exploration including historical drilling has confirmed open mineralization at depth and in all directions. Star Copper's strategic plans include geological mapping and geophysical surveys to refine existing targets, diamond drilling programs to test high-priority zones, environmental baseline studies and permitting groundwork alongside data analysis and resource modeling to support a future resource estimate prepared in accordance with NI 43-101. The Company further plans to advance its Indata Project with follow-up drilling to expand on previous high-grade copper and gold intercepts, trenching and surface sampling to delineate mineralized zones, and infrastructure improvements for site accessibility and operations. With a commitment to sustainable development and value creation, Star Copper aims to position itself to support surging industrial demand to meet growing global electrification needs.

Cautionary Note Regarding Forward-Looking Statements

This news release contains forward-looking statements and other statements that are not historical facts. Forward-looking statements are often identified by terms such as "will", "may", "should", "anticipate", "expects" and similar expressions. All statements, other than statements of historical fact, included in this news release are forward-looking statements that involve risks and uncertainties. Forward-looking statements in this press release include, but are not limited to, statements regarding the Company's exploration and development plans with respect its projects, statements regarding the Offering including, without limitation, statements regarding the completion or the expected closing date, the receipt of regulatory approvals, and the use of gross proceeds, the Company's anticipated business and operational activities, and the Company's plans with respect to the exploration of the Company's flagship Star Project and the Indata Project, including the preparation or any mineral resource estimate. There can be no assurance that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's expectations include, but are not limited to, the inherently unpredictable nature of resource exploration, market conditions and the risks detailed from time to time in the filings made by the Company with securities regulators. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company. The reader is cautioned not to place undue reliance on any forward-looking information. Such information, although considered reasonable by management at the time of preparation, may prove to be incorrect, and actual results may differ materially from those anticipated. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The forward-looking statements contained in this news release are made as of the date of this news release and the Company will update or revise publicly any of the included forward- looking statements as expressly required by applicable law.

This news release is not for distribution to U.S. newswire services or for dissemination in the United States.
