06.03.2026 | [Business Wire](#)

[Altius Minerals Corp.](#) (TSX: ALS) (OTCQX: ATUSF) ("Altius") and Lithium Royalty Corp. ("LRC") (TSX: LIRC) are pleased to announce the successful completion of the previously announced plan of arrangement under the Canada Business Corporations Act (the "Arrangement").

The Arrangement was approved by LRC shareholders at a special meeting of shareholders held on February 26, 2026 with 99.8% of all votes cast being in favour of the Arrangement. A final order approving the Arrangement was subsequently received from the Ontario Superior Court of Justice (Commercial List) in respect of the Arrangement on March 3, 2026.

Altius CEO Brian Dalton commented, "The closing of this transaction represents an important milestone in Altius's history of growing and diversifying a portfolio of royalties relating to long-life, high growth potential natural resource projects. We commend the LRC team for their success in building the business and welcome the shareholders that are now joining with us to support the exciting combined future ahead. We are also very pleased that Ernie Ortiz has agreed to join our management team as we continue to seek ways to add value and strength to Altius."

In connection with the closing of the Arrangement, the common shares of LRC will be de-listed from the Toronto Stock Exchange and LRC will apply to the Ontario Securities Commission for an order that it has ceased to be a reporting issuer under applicable Canadian securities laws.

"We would like to thank our shareholders for their continued support of Lithium Royalty Corp. Since 2018, we curated a portfolio of 38 diversified, high-grade, low-cost royalties in the lithium sector. The portfolio is strongly situated to benefit from rising lithium prices during this cycle and to uncover additional levels of optionality in the decades ahead as the growth trajectory of the sector remains robust. The completion of this transaction marks an important milestone for LRC and marks an exciting new chapter of growth for the lithium segment of Altius Minerals," stated Ernie Ortiz, President and CEO of LRC.

Full details of the Arrangement and certain other matters are set out in LRC's management information circular dated January 23, 2026 (the "LRC Circular") which has been filed under its issuer profile on SEDAR+ at www.sedarplus.ca and is available on the LRC website: www.lithiumroyaltycorp.com.

About Altius

Altius's strategy is to create per share growth through a diversified portfolio of royalty assets that relate to long life, high margin operations. This strategy further provides shareholders with exposures that are well aligned with global growth trends including increasing electricity-based market share within energy usage, global infrastructure build and refurbishment growth, increased EAF based steelmaking, steadily increasing agricultural fertilizer requirements and the enhanced appetite for financial asset diversification through precious metals ownership. These macro-trends each hold the potential to cause higher demand for many of Altius's commodity exposures including potash, high purity iron ore, renewable energy, base metals, and gold. In addition, Altius runs a successful Project Generation business that originates mineral projects for sale to developers in exchange for royalties and that has a demonstrated track record of driving outsized direct returns from its overall royalty investment portfolio. Altius has 55,915,754 common shares issued and outstanding that are listed on Canada's Toronto Stock Exchange. It is a member of both the S&P/TSX Small Cap and S&P/TSX Global Mining Indices and the S&P/TSX Canadian Dividend Aristocrats Index.
