

# Borr Drilling Provides Operational Update on Arabian Gulf Operations

09.03.2026 | [PR Newswire](#)

[Borr Drilling Ltd.](#) (NYSE: BORR) (Euronext Growth Oslo: BORR) ("Borr Drilling" or the "Company") today provided an operational update following recent hostilities in the Arabian Gulf, where the Company has four jack-up rigs deployed: one in Saudi Arabia; one in the UAE; and two in Qatar.

In accordance with the customers' general precautionary measures, the three rigs deployed in Qatar and the UAE have been down manned as of last week.

On March 7, 2026, the Arabia III was impacted by an incident that occurred on a customer-operated platform. The rig was subsequently safely shut down, and all personnel were successfully evacuated.

All Borr Drilling's employees and crew in the region are accounted for and safe.

CEO, Bruno Morand, commented: "First and foremost, ensuring the safety and wellbeing of our personnel is our highest priority. All employees in the region are safe and accounted for, and operations across the region will remain on standby until conditions allow for a safe resumption of activity."

The Company continues to closely monitor developments and remains in active communication with its customers and relevant stakeholders in the region. These four rigs remain under contract and are insured.

The Company will provide additional updates in the event of any material developments in the situation.

## About Borr Drilling
