

# New Break Announces Frankfurt Stock Exchange Listing Under the Symbol O91

16.03.2026 | [Newsfile](#)

Toronto, March 16, 2026 - [New Break Resources Ltd.](#) (CSE: NBRK) (FSE: O91) ("New Break" or the "Company") is pleased to announce that its common shares have been cross-listed on the Frankfurt Stock Exchange ("FSE") in Germany under the symbol FSE: O91 effective March 13, 2026. The Company's common shares will continue to trade on the Canadian Securities Exchange ("CSE") under the symbol "NBRK".

The FSE, operated by Deutsche Börse Group, is the largest of the eight stock exchanges in Germany, handling approximately 90% of the turnover. The FSE, which includes the electronic trading system Xetra, is one of the world's largest and most established international stock exchanges and serves as a key marketplace for European institutional and retail investors, particularly those with a long-standing interest in the natural resources sector.

Michael Farrant, President of New Break commented, "New Break began trading on the CSE on September 7, 2022. Unlike many of our peers, we waited to cross-list our shares in Europe and the United States until we had a story that could offer investors the opportunity to achieve superior returns and set us apart from the multitude of FSE and OTC-listed junior exploration companies. We made a gold discovery! Our summer 2025 maiden drilling program at New Break's 100% owned Moray gold project in northeastern Ontario returned 1.04 g/t Au over 86.7 metres and 3.17 g/t Au over 43.0 metres in two holes drilled in the Zavitz zone. Fall 2025 drilling confirmed those results, returning further intersections of 1.57 g/t Au over 70.7 metres and 2.0 g/t Au over 38.0 metres. The Company has also applied to have its common shares listed on the OTCQB in the United States. With a significant new gold discovery in northeastern Ontario and 2026 drilling at Moray well underway, distribution in Europe and the United States is an important step in expanding New Break's visibility."

Information relating to New Break, including real-time price quotes and market information, is available on the FSE website at <https://live.deutsche-boerse.com/equity/new-break-resources-ltd?mic=XFRA> under the symbol "O91".

About New Break Resources Ltd.

New Break is a proudly Canadian mineral exploration company focused on its Moray gold project located 49 km south of Timmins, Ontario, in a well-established mining camp within proximity to existing infrastructure, 32 km northwest of the Young-Davidson gold mine, operated by Alamos Gold Inc.
