

Boron One Holdings Inc. Advances with Potential Partner

31.03.2026 | [ACCESS Newswire](#)

[Boron One Holdings Inc.](#) ("Boron One" or the "Company") (TSXV:BONE), a company committed to advancing global decarbonization through the responsible utilization of its boron assets, is pleased to announce that it is progressing through a diligence process with a potential strategic partner that utilizes substantial annual volumes of borate mineral concentrates and derivatives in its industrial operations. The parties are actively evaluating product specification alignment, production planning, and the structure of a multiyear commercial relationship.

"Boron is widely acknowledged as a critical, strategically important mineral, with supply constraints persisting," said Tim Daniels, President of Boron One. "Accordingly, customers are looking to secure their needs through extended offtake agreements or deeper integration into their supply chains. That dynamic strongly supports the position of a new supplier entering the sector."

Additionally, the Company announces that it is undertaking a non-brokered private placement of a minimum of \$500,000.00 up to \$800,000.00 by the issue of units at a price of \$0.04 per unit. Each unit consists of one common share and one common share warrant. Each warrant entitles the holder to subscribe for one additional common share for a period of 3 years from the date of closing, at an exercise price of \$0.05 in the first year, and \$0.10 in the second and third years, subject to the Corporation's option to accelerate the expiry date if the stock trades for 10 consecutive trading days at \$0.12 per common share for the initial exercise period and \$0.22 per common share for the subsequent period.

The Company intends to use net proceeds of the private placement for working capital requirements, including testing and planning with respect to future boron ore extraction, processing and sale.

The company may pay a finder's fee to qualified finders who assist in selling the units, in cash or securities or a combination of both, as permitted by TSX Venture Exchange policy and applicable securities laws.

The private placement is subject to certain conditions including, but not limited to, the receipt of all necessary approvals, including approval from the TSX Venture Exchange.

On behalf of the Board of Directors,
Tim Daniels, President

###

About the Piskanja Boron Project

Piskanja is Boron One Holdings Inc.'s wholly owned boron deposit with a Measured Mineral Resource of 1.39 million tonnes (averaging 35.59% B₂O₃), an Indicated Mineral Resource of 5.48 million tonnes (averaging 34.05% B₂O₃), and an Inferred Mineral Resource of 284.7 thousand tonnes (averaging 39.59% B₂O₃), calculated in accordance with the Canadian Institute of Mining Definition Standards on Mineral Resources and Reserves (CIM Standards), as disclosed in the Company's report titled, "Technical Report and Preliminary Economic Assessment For The Piskanja Borate Project, Serbia, June 24, 2022". The responsible person for the PEA and the Mineral Resource Estimate contained within, is Prof. Miodrag Banjević PhD. P. Geo, EurGeol, a Qualified Person in accordance with the CIM Definition Standards on Mineral Resources and Reserves (CIM Standards), and independent of Boron One Holdings Inc.

Qualified Persons

Nenad Rakic, EurGeol, Piskanja Project Field Manager, a qualified person as defined by NI 43-101, has reviewed the technical information that forms the basis for this news release, and has approved the disclosure herein.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

For Boron One Holdings Inc. Investors

Certain statements made in this press release that are not based on historical information are forward-looking statements that involve substantial known and unknown risks and uncertainties. This press release contains express or implied forward-looking statements relating to, among other things, Boron One's expectations concerning management's plans, objectives and strategies, including its plans for advancing the Company's Piskanja Project through to an exploitation license. These statements are neither promises nor guarantees but are subject to a variety of risks and uncertainties, many of which are beyond our control, and which could cause actual results to differ materially from those contemplated in these forward-looking statements. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Factors that could cause actual results to differ materially from any forward-looking statement include, but are not limited to, failure to convert estimated mineral resources to reserves, capital and operating costs varying significantly from estimates, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, political risks, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects and the other risks involved in the mineral exploration and development industry.

Boron One Holdings Inc. undertakes no obligation to update or revise the information contained in this press release, whether as a result of new information, future events or circumstances or otherwise except as expressly required by applicable securities law. Further information regarding the uncertainties and risks can be found in the disclosure documents filed by Boron One with the securities regulatory authorities, available at www.sedar.com. These and other factors made in public disclosures and filings by the Company should be considered carefully.

Mineral resources are not mineral reserves and do not have demonstrated economic viability. "Inferred Resources" have a great amount of uncertainty as to their existence, and economic and legal feasibility. Investors are cautioned not to assume that all or any part of an inferred mineral resource reported in this news release will ever be upgraded to a higher category or to reserves. U.S. persons are advised that while mineral resources are recognized under Canadian regulations, the U.S. Securities and Exchange Commission does not recognize them. U.S. persons are also cautioned not to assume that all or any part of an inferred mineral resource is economically or legally mineable.

Not for distribution in the US
