About Bullion Gold Resources

Bullion Gold Resources Corp. is a junior mining exploration company operating primarily in Quebec, specifically in the Abitibi and James Bay mining regions. The Company holds a 100% interest in the Terragold (Au), Bousquet (Au), Langlade (Cu, Zn, Au, Ag), and Bodo (Cu, Zn, Au, Ag) projects.

The Terragold project, consisting of 38 mining cells covering an area of $2,060$ hectares, is located near the municipality of Senneterre, in Abitibi, Quebec, Canada, in a volcanic geological environment. The gold and silver mineralization is associated with veins linked to the Uniacke deformation corridor, approximately 130 meters wide. Historical drilling has intersected several gold-bearing zones over a length of approximately 2,500 meters and to a depth exceeding 450 meters. The mineralized zone remains open laterally as well as in depth, suggesting significant expansion potential.
