

GoGold Announces Q2 2026 Parral Production

15.04.2026 | [Newsfile](#)

Halifax, April 15, 2026 - [GoGold Resources Inc.](#) (TSX: GGD) (OTCQX: GLGDF) ("GoGold", "the Company") is pleased to report production for its second quarter ending March 31, 2026 of 230,680 silver ounces, 2,549 gold ounces, 84 tonnes of copper, and 93 tonnes of zinc, for a total of 394,605 silver equivalent ounces ("SEO").

"The Parral tailings mine had another excellent quarter for the company, generating substantial cash flows, with our cash balance increasing by approximately \$16M to \$261 million USD. Silver production increased 13%, which offset a gold decrease of 13% from the previous quarter. While our silver equivalent production decreased this is primarily due to the strengthening of silver prices relative to gold in the quarter. For comparison purposes, using the same equivalency ratio as last quarter would equate to production of 446,000 SEO," Brad Langille, President and CEO stated. "Our very strong debt-free balance sheet, together with our substantial Parral cash flow has put us in an excellent position for our upcoming mine build. With an initial capital expenditure of \$227 million per our Los Ricos South feasibility study, compared to a current cash balance of \$261 million and additional strong cash flow generation from Parral over a remaining mine life of 4 to 5 years really demonstrates that the Company is fully financed for its upcoming build."
