

Africa Energy Announces Block 11B/12B Operations Update

29.04.2026 | [CNW](#)

[Africa Energy Corp.](#) (TSXV: AFE) (Nasdaq First North: AEC) ("Africa Energy" or the "Company") announces that the Company, through its investment in Main Street 1549 Pty Ltd. ("Main Street"), which holds an interest in Block 11B/12B, offshore the Republic of South Africa, has obtained a further extension for the submission of a new Environmental and Social Impact Assessment ("ESIA") to November 4, 2026. [View PDF Version](#)

The further extension to the ESIA has been granted in light of the decision by the Western Cape High Court in South Africa ("High Court") to set aside an environmental authorization for offshore exploration operations in Block 5/6/7 (held by an unrelated party) so that additional, new and amended environmental assessments can be conducted and placed before the Minister of Mineral and Petroleum Resources for reconsideration. An application for leave to appeal this decision to the Supreme Court of Appeal has been launched by the unrelated party. The Company has engaged with its advisors, including legal counsel, to determine the appropriate way forward with respect to its ESIA as a result of the High Court decision. The grant of the environmental authorization is a pre-requisite to the grant of the production right in relation to Block 11B/12B.

Main Street currently holds a 10% participating interest in Block 11B/12B, offshore South Africa. Subject to all relevant regulatory approvals by South African authorities in respect to the withdrawal of the joint venture partners in Block 11B/12B and completion of the restructuring of Main Street (previously announced May 29, 2025), the Company expects to hold a 75% direct interest in Block 11B/12B. Both the assignment of the withdrawing parties' interest in Block 11B/12B to Main Street and the completion of the Main Street restructuring require grant of the production right in relation to Block 11B/12B.
