Vancouver, April 30, 2026 - [Selkirk Copper Mines Inc.](#) (TSXV: SCMI) (FSE: IO20) (OTCQB: SKRKF) ("Selkirk Copper" or the "Company") is pleased to announce that it has closed the previously announced "bought deal" private placement (the "Offering") pursuant to which the Company issued: (i) 23,914,000 common shares of the Company (the "Common Shares") at a price of C\$1.15 per Common Share for aggregate gross proceeds of C\$27,501,100; and (ii) 4,412,000 common shares of the Company that will qualify as "flow through shares" within the meaning of subsection 66(15) of the Income Tax Act (Canada) (the "Flow-Through Shares") at a price of C\$1.70 per Flow-Through Share for aggregate gross proceeds of C\$7,500,400. The Offering included a full exercise of the Underwriters' (as defined herein) option. The Offering was conducted with a syndicate of underwriters led by Canaccord Genuity Corp., and included Haywood Securities Inc., Raymond James Ltd. and Stifel Nicolaus Canada Inc. (collectively, the "Underwriters").

M. Colin Joudrie, President & CEO, commented: "We are very pleased with continued strong interest we have received from current and new investors to advance our evaluation of a restart of the Minto copper-gold-silver mine. Exploration results continue to expand known mineralization and refine our understanding of the geological system which forms the basis for this exceptional deposit, we are advancing engineering work to produce a Preliminary Economic Assessment expected by mid-year, and we continue to receive strong support from the Selkirk First Nation. We have also recently taken over responsibility for site operations and continue to advance our planning and permitting activities targeting a restart decision in mid-2027."

The net proceeds received from the sale of the Common Shares will be used to continue development and restart activities related to the Company's Minto Project, as well as for working capital and general corporate purposes.

The gross proceeds received from the sale of the Flow-Through Shares will be used to incur "Canadian exploration expenses" that qualify as "flow-through critical mineral mining expenditures" (the "Qualifying Expenditures") in an aggregate amount of not less than the total amount of the gross proceeds from the sale of the Flow-Through Shares (the "Commitment Amount") on or before December 31, 2027, and the Company will renounce all the Qualifying Expenditures in an amount equal to the Commitment Amount in favour of the purchasers or substituted purchasers of the Flow-Through Shares effective December 31, 2026. In the event that the Company is unable to renounce Qualifying Expenditures as described above, and/or the Qualifying Expenditures are otherwise reduced by the Canada Revenue Agency, the Company will indemnify each purchaser or substituted purchaser for the additional Canadian income taxes payable by such purchaser or substituted purchaser as a result of the Company's failure to incur and renounce the Qualifying Expenditures or as a result of the reduction as agreed.

The Underwriters received a cash commission equal to 6% of the gross proceeds of the sale of the Common Shares and Flow-Through Shares, except with respect to subscribers on the Company's "president's list" for which a cash commission equal to 2% was paid.

The Common Shares and Flow-Through Shares were offered pursuant to applicable exemptions from the prospectus requirements under National Instrument 45-106 - Prospectus Exemptions in Canada and pursuant to applicable exemptions from the prospectus and registration requirements in jurisdictions outside of Canada, and are subject to a hold period of four months and one day from the closing date of the Offering in accordance with applicable Canadian securities laws.

Certain insiders of the Company acquired an aggregate of 1,838,500 Common Shares pursuant to the Offering and as such portion of the Offering is considered a "related party transaction" pursuant to TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 - Protection of Minority Security Holders in

Special Transactions ("MI 61-101"). The Company is relying on exemptions from the formal valuation and minority shareholder approval requirements provided under sections 5.5(a) and 5.7(1)(a) of MI 61-101 on the basis that the fair market value of the aggregate participation of the insiders in the Offering does not exceed 25% of the market capitalization of the Company, as determined in accordance with MI 61-101. The Company did not file a material change report more than 21 days before the expected closing of the Offering because the details of the participation therein by related parties of the Company were not settled until shortly prior to closing of the Offering and the parties wished to close on an expedited basis for business reasons.
