Saskatoon, April 30, 2026 - [1844 Resources Inc.](#) (TSXV: EFF) ("1844" or the "Company") is pleased to announce that it has mandated Explo-Logik Inc. ("Explo-Logik") as the operator for its 2026 exploration program on the Company's flagship SV2 copper project located in the Gaspé Peninsula, Québec.

Program Highlights

- Turnkey management of the 2026 exploration program
- Integration of logistics, field operations, and technical execution
- Optimization of timelines and cost efficiencies
- Support for upcoming drilling and field activities

Explo-Logik is a Canadian turnkey mining exploration services company managing all phases of exploration programs, from initial planning through to final reporting. Since 2021, Explo-Logik has been certified UL ECOLOGO® UL 2724, a third-party validated Canadian certification recognizing best practices in environmental, social, and economic performance within the mining exploration sector.

The company's integrated approach centralizes project management, enabling efficient execution tailored to the specific geological and logistical constraints of each project. Its teams have extensive experience operating in diverse geological environments and exploring for a wide range of commodities, including base metals such as copper, zinc, nickel, and cobalt.

Management Commentary

Sylvain Laberge, President & CEO of 1844 Resources, commented:

"1844 has previously worked with Explo-Logik in the Gaspé region, and their professionalism and strong work ethic make them a natural partner for our 2026 program. Their growing experience in the district, including logistical management for drilling campaigns at the Gaspé Copper Project, provides us with a high level of confidence as we move toward execution of our upcoming field and drilling activities."

The appointment of Explo-Logik represents a key step in advancing the Company's 2026 exploration strategy, which includes relogging historical core, field validation of geophysical targets, and preparation for an initial drill campaign planned for late summer to early fall 2026.
