PWC is located in the Cortez mining district of the Battle Mountain - Eureka Trend. PWC is operated by Kinross Gold U.S.A., Inc. ("Kinross"), a wholly owned subsidiary of [Kinross Gold Corp.](#) (TSX: K, NYSE: KGC), under an exploration earn-in agreement executed in March 2024.

The Technical Report was prepared by Matthew Dumula, P. Eng. of Archer Cathro Geological (US) Ltd., who is a "Qualified Person" as defined under NI 43-101 and independent of Riley Gold.

The Technical Report provides an initial overview, including exploration activities to date. Kinross, as operator, continues to conduct additional exploration activities at PWC.

About PWC:

PWC constitutes a prospective exploration property for Carlin-type, disseminated and replacement gold deposits. PWC consists of a land package totaling approximately 27.2 km<sup>2</sup> of unpatented mining claims and patented fee lands adjoining NGM. PWC is situated along the Cortez structural zone of the exceptionally productive Cortez Trend within the Battle Mountain - Eureka Trend in north central Nevada (Figure 1). The Cortez and Pipeline complexes (adjoining Riley Gold's PWC boundary) are top producers within Nevada, a state that consistently produced between 4-5 million ounces of gold a year.
