

CCC Announces Closing of the First Tranche of Private Placement of Units

11.05.2026 | [Newsfile](#)

Toronto, May 11, 2026 - [The Canadian Chrome Company Inc.](#) (CSE: CACR) (CSE: CACR.A) formerly known as KWG Resources Inc. ("CCC" or the "Company") is pleased to announce the closing today of the first tranche of its previously announced non-brokered unit private placement (the "Private Placement") (see the Company's news releases dated March 18, 2026 and May 1, 2026) by issuance of an aggregate of 61,142 units (each a "Unit") at a price of \$1.40 per Unit for aggregate gross proceeds of \$85,600. Each Unit is comprised of one (1) multiple voting share of the Company (each, a "Multiple Voting Share") and one (1) warrant of the Company (each, a "Warrant"), with each such Warrant entitling the holder to purchase one further Multiple Voting Share upon payment of \$1.50 at any time on or before the earlier of (i) May 11, 2031 or (ii) two (2) business days after completion of a take-over bid or a merger, amalgamation, arrangement or other form of business combination as a result of which the shareholders of the Company immediately prior to such bid or business combination do not own a majority of votes attaching to the voting securities of the Company or of the resulting issuer or do not have the power to elect a majority of the directors of the Company or of the resulting issuer, as the case may be, after completion of such bid or business combination (each a "Change of Control").

The following insiders of the Company (each an "Insider") participated in the Private Placement for an aggregate of 16,142 Units representing the equivalent of 0.10% of the Company's issued and outstanding multiple voting shares (calculated on the basis of conversion of the subordinate voting shares into multiple voting shares on a ratio of 100:1) on a partly diluted basis following closing of the Private Placement:

The Company paid finder's fees of 5% of the aggregate amount subscribed for by subscribers referred to the Company by finders entitled to receive such fees in accordance with applicable securities laws, which fees aggregated \$3,150 and were paid by issuing 2,250 Units at deemed price of \$1.40 per Unit.

The proceeds from the Private Placement will be used to fund the Company's business focused on the acquisition of interests in, and the exploration, evaluation and development of, large-scale mineral deposits of chromite and other base metals and minerals including, without limitation, funding the Company's overhead and operating expenses and the costs of this Private Placement.

All of the securities issued pursuant to this Private Placement are subject to a four (4) month hold period.

The Private Placement, in part, is a "related party transaction" within the meaning of Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101") as Insiders purchased Units. A formal valuation was not required under MI 61-101 because the Company is not listed on any of the stock exchanges specified in MI 61-101. Minority shareholder approval was also not required as the fair market value of the consideration for the transaction involving the Insiders does not exceed 25 percent of the Company's capitalization as of the date hereof, which is approximately \$60 million. In view of the short time between the date of the subscription by the related parties and the date of the closing of this tranche, the frequent participation of insiders in past private placements undertaken by the Company and the relatively small effect on the Company's capitalization on completion of this Private Placement, the Company considered it reasonable not to announce this related party transaction 21 days in advance of closing.

About The Canadian Chrome Company Inc.

The Canadian Chrome Company Inc. is an exploration stage company that is focused on identification, acquisition, consolidation, exploration, development and evaluation of large-scale deposits of minerals including chromite in the Ring of Fire, as well as other base metals and strategic minerals and, where applicable, support for the development of transportation and electrification links to access remote areas where these deposits may be located.
