Sydney, May 27, 2026 - Established gold producer [Austral Gold Ltd.](#) (ASX: AGD) (TSXV: AGLD) (OTCQB: AGLDF) ("Austral" or the "Company") is pleased to provide the 2026 AGM Chair's Address for the Annual General Meeting to be held at 9:00am (AEST) today, as required by ASX Listing Rule 3.13.3.

Chair's Address
2026 Annual General Meeting

On behalf of the Board of Directors of Austral Gold Limited, I am pleased to provide an update on the Company's performance for the year ended 31 December 2025, including highlights from our recent first quarter ended 31 March 2026.

FY2025 was a transformational year for Austral, marked by the reopening of the Casposo Mine in Argentina, which complements our existing Guanaco operations in Chile and establishes a two-cluster producing portfolio across two mining-friendly jurisdictions in South America.

The successful restart of Casposo during FY25 marked a major operational milestone for the Company. This culminated in record fourth-quarter production of 4,283 gold equivalent ounces or GEOs. Combined with 11,109 GEOs produced at the Guanaco Mine Complex in Chile, total annual production reached 15,392 GEOs. Higher realised gold and silver prices, combined with continued cost discipline, contributed to operating cash flow of approximately US\$9.3 million.

This momentum continued into the first quarter of 2026. Production reached 7,335 GEOs, with Casposo contributing 61% of total output as ramp-up activities progressed. Revenue increased by 43% quarter-on quarter to US\$34.1 million, primarily reflecting higher realised gold and silver prices.

The Company further strengthened its financial position during the quarter. In February 2026, Austral completed a private placement raising approximately A\$8.5 million. At 31 March 2026, Austral held cash of US\$24.3 million and was in a net cash position, providing increased flexibility to support operational and strategic priorities.

Exploration remains central to our long-term growth strategy. During FY2025, a technical report confirmed the economic potential of Casposo, and the Company has since advanced targeted exploration programs at both Casposo and Guanaco. These programs are designed to extend mine life and evaluate additional opportunities within existing mining districts.

Our Equity Investments portfolio, including our holding in Unico Silver, continued to provide portfolio diversification and liquidity.

Before I turn to the outlook, I would like to draw your attention to the forward-looking statements disclaimer. Any statements regarding future performance, strategy or expectations are subject to risks and uncertainties, and actual outcomes may differ materially.

Looking ahead, we remain focused on operational execution and disciplined capital allocation. With a strengthened balance sheet, continued ramp-up at Casposo, active exploration programs and supportive precious metals pricing, the Company is well positioned for the year ahead. Production guidance of 27,000 to 33,000 GEOs reflects expected continued contributions from Casposo and ongoing optimisation across the portfolio.

On behalf of the Board, I would like to thank our employees, contractors, management team, shareholders and community partners for their continued support. We remain focused on safely delivering operational performance, advancing our strategic priorities and building long-term value for shareholders.
