Saskatoon, May 28, 2026 - [1844 Resources Inc.](#) (TSXV: EFF) ("1844" or the "Company") is pleased to announce that it will participate in THE Mining Investment Event 2026, taking place June 2-4, 2026 at the Centre des congrès de Québec in Québec City. The event brings together mining companies, institutional investors, strategic groups, family offices, and industry participants from across the mining sector.

1844's participation marks the Company's first major mining investment conference attendance since 2015 and forms part of the ongoing development of its flagship SV2 Copper Project located in the Gaspé Peninsula, Québec.

The conference follows a series of developments at SV2, including project reactivation, reinterpretation of historical geological data, integration of airborne geophysics, advancement of exploration targets, and the launch of the Company's 2026 exploration program.

Sylvain Laberge, President and Chief Executive Officer of 1844 Resources, states, "Our participation in THE Mining Investment Event reflects the continued development of the SV2 project and the work completed over the past several months to advance 1844's exploration strategy in the Gaspé copper district.

As we move toward execution of our 2026 program, we believe this is an appropriate time to continue engagement with the investment community and build awareness around the evolving SV2 story."

1844 will use the event to engage with existing shareholders, prospective investors, and strategic industry participants while presenting the evolving exploration thesis for the SV2 copper system and highlighting the progress made toward execution of the Company's 2026 exploration activities.

Conference Highlights

- First major mining investment conference participation since 2015
- Continued engagement with the investment community as part of the ongoing development of the SV2 project
- Presentation of the Company's evolving copper exploration model in the Gaspé Peninsula
- Meetings with institutional investors, family offices, strategic groups, and industry participants
- Showcase of recent technical progress and upcoming exploration milestones at SV2

1844's 2026 exploration strategy includes validation of historical mineralization, geological reinterpretation, integration of airborne geophysical results, detailed field work, and advancement of exploration targets across the broader SV2 copper system.
