

# Gamma Resources Announces Closing of Amended Payment Terms Negotiation for U.S. Uranium Portfolio Lease Agreement

03.06.2026 | [ACCESS Newswire](#)

VANCOUVER, June 3, 2026 - [Gamma Resources Ltd.](#) (TSX-V:GAMA)(OTCQB:GAMXF)(FRA:MRD0) ("Gamma" or the "Company") is pleased to announce that the TSX Venture Exchange (the "TSXV") has accepted an amending agreement dated April 14, 2026 (the "Amending Agreement"), which amends the payment terms under the Company's previously announced lease agreement for its U.S. uranium projects as originally disclosed in press releases dated April 14, 2025 and April 14, 2026. The amended terms provide the Company with enhanced financial flexibility while maintaining its rights and interests in the underlying assets.

## Amended Payment Terms

The amended payment terms and their current status are as follows:

- US\$50,000 on the Effective Date (payment complete);
- US\$200,000 not later than 120 days after the Effective Date (payment complete);
- US\$20,000 on or before April 14, 2026 (payment complete);
- US\$50,000 on or before May 14, 2026 (payment complete);
- US\$50,000 on or before June 14, 2026 (payment complete);
- US\$180,000 on or before July 14, 2026 (payment outstanding);
- 1,000,000 common shares of Gamma to be issued as soon as practicable;
- US\$250,000 on the second anniversary of the Effective Date (payment outstanding); and
- US\$250,000 on the third anniversary of the Effective Date (payment outstanding).

The TSXV has approved the issuance of 1,000,000 common shares of Gamma, and such shares will be issued as soon as practicable. The shares will be subject to a statutory hold period of four months and one day in accordance with applicable securities laws.

The amended payment terms align Gamma's near-term cash commitments with its broader capital allocation strategy, allowing the Company to continue advancing its U.S. uranium portfolio while preserving financial flexibility.

Except as amended by the Amending Agreement, all other terms, conditions and provisions of the original lease agreement remain in full force and effect as unamended.

Gamma is currently advancing exploration activities across its U.S. uranium portfolio, including its Mesa Arc Project in New Mexico and Green River Project in Utah. Ongoing work is focused on refining target areas through data compilation and interpretation, permitting, and field-based programs designed to support drill targeting.

About Gamma Resources Ltd.

Gamma Resources Ltd. is a U.S.-focused uranium exploration and development company advancing high-quality assets in the Mountain West region. The Company's portfolio includes the Green River Project in Utah, comprising 1,100 acres near prominent regional producers, and the Mesa Arc Project in New Mexico, a strategic land position now totaling 4,520 acres that includes historic uranium resources in the Chama Basin. Management believes the Company is uniquely positioned to benefit from the unprecedented policy and market tailwinds reshaping the U.S. nuclear landscape, and help meet this demand with responsibly sourced, U.S.-based uranium supply.

#### Forward-Looking Statements

Neither the TSXV nor its regulation services provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. Statements made in this news release, other than purely historical information, including statements relating to the Company's future plans and objectives or expected results, may include forward-looking statements. Forward-looking statements are based on numerous assumptions and are subject to all of the risks and uncertainties inherent in resource exploration and development. As a result, actual results may vary materially from those described in the forward-looking statements.
