Vancouver, June 12, 2026 - [Japan Gold Corp.](#) (TSXV: JG) (OTCQB: JGLDF) ("Japan Gold" or the "Company") is pleased to announce a non-brokered private placement of unsecured convertible debentures (the "Debenture") for gross proceeds of US\$1,000,000 (CDN\$1,393,000) (the "Offering") to Equinox Partners Investment Management, LLC ("Equinox"), a strategic investor and major shareholder of the Company.

The Debenture will mature on the date that is three years from the date of issuance (the "Maturity Date"). The Debenture will bear interest at a rate of 10% per annum (non-compounded), accruing daily but payable, in cash, only at the Maturity Date, on the occurrence of an Event of Default or upon an early redemption. The Company will have the right, at its option, to make an early redemption in cash of all or any part of the principal amount together with payment of any accrued but unpaid interest. In addition, the Company will have the right, at its election, to satisfy its obligation to pay cash to the Debenture holder through the delivery of common shares of the Company ("Shares") in lieu of cash, at a price per share which equals the greater of: (i) the most recent Market Price of the Shares on the TSX Venture Exchange on the date that the accrued interest becomes payable; (ii) \$0.11; and (iii) a price per security or conversion price of debt securities in a Future Financing Event. A "Future Financing Event" will be considered the most recent issuance and sale of securities by the Company in which the Company issues or sells any common shares (or units consisting of common shares and warrants), or in which the Company issues or sells any convertible debt security issued by the Company by way of a private placement during the twelve (12) month period immediately following the closing date of the Offering, provided that such Future Financing Event results in gross offering proceeds of not less than CDN. \$2,000,000.

The net proceeds from the Offering will be used for general working capital purposes. The Debenture and any securities issuable upon conversion will be subject to a statutory hold period of four months from the date of issuance of the Debenture. The Offering and conversion of the Debenture into Shares is subject to final approval by the TSX Venture Exchange.

As of the Closing Date, Equinox holds 90,133,518 shares, representing approximately 29.32% of the then issued and outstanding common shares of the Company. Equinox is subject to the alternative monthly reporting scheme under Part 4 of National Instrument 62-103 The Early Warning System and Related Take-Over Bid and Insider Reporting Issues, and a report of Equinox under that instrument will be made available on the Company's SEDAR+ profile in due course.

Equinox is considered a "related party" of the Company, and Equinox's subscription under the Offering will constitute a "related party transaction" under Multilateral Instrument 61-101 Protection of Minority Security Holders in Special Transactions ("MI 61-101"). The Company intends to rely on the exemptions from the formal valuation and minority shareholder approval requirements under section 5.5(a) and section 5.7(1)(a) of MI 61-101, as the fair market value of the securities issued to the related party do not exceed 25% of the Company's market capitalization, as calculated in accordance with MI 61-101.

This news release does not constitute an offer to sell or a solicitation of an offer to sell any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.
