Forward-Looking Statement Cautions

This press release contains certain "forward-looking statements" within the meaning of Canadian securities legislation, including, but not limited to, statements regarding receipt of final approval of the Private Placement by the TSX Venture Exchange; the Company's intention to complete additional tranches of the Private Placement; the Company's intended use of proceeds; the Company's plans with respect to its resource projects and the timing related thereto; the merits of the Company's projects; and the Company's objectives, plans and strategies. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. The Company cautions that forward-looking statements are based on the beliefs, estimates and opinions of the Company's management on the date the statements are made and involve a number of risks and uncertainties. Consequently, there can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially. Except as required by applicable securities laws and the policies of the TSX Venture Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change.

Factors that could cause actual results to differ materially include, among others, the risk that the Company may not receive final TSX Venture Exchange approval for the Private Placement; the risk that the Company may not complete any additional tranches of the Private Placement; the risk that the proceeds of the Private Placement may not be used as currently anticipated; the risk of accidents and other risks associated with mineral exploration operations; the risk that the Company will encounter unanticipated geological factors; the possibility that the Company may not be able to secure permitting and other agency or governmental clearances necessary to carry out the Company's exploration plans; and risks of political uncertainties and regulatory or legal changes in the jurisdictions where the Company carries on business that may interfere with the Company's business and prospects.
