

SSR Mining Publishes 2025 Sustainability Report

18.06.2026 | [Business Wire](#)

[SSR Mining Inc.](#) (Nasdaq/TSX: SSRM) ("SSR Mining" or the "Company") is pleased to announce that it has published its 2025 Sustainability Report ("Report"), which outlines the Company's 2025 performance as well as its approach to sustainability across a range of areas, including Health & Safety, environment, communities, and diversity.

2025 Sustainability Performance Highlights

- Re-used or recycled approximately 92% of water used across the Company's operating mine sites, led by strong performance from our Marigold and Cripple Creek & Victor operations in the USA.
- Invested over \$1.6 million in strategic community-specific initiatives, a more than 55% increase over 2024. During the year, our Community Development Committees became fully operational, with greater emphasis on funding longer-term, sustainable initiatives across our portfolio.
- Advanced an improved safety management system, prioritizing the development of a stronger proactive reporting culture and recognizing reporting on potential significant incidents (pSIs). Our "I Care, We Care" philosophy, to be rolled out globally in 2026, reinforces our commitment to eliminating fatalities, reducing injuries and removing high-impact risks from our operations. No workplace fatalities or life-altering injuries were reported in 2025.

The Report presents an overview of the sustainability performance during the year from January 1, 2025 to December 31, 2025 across SSR Mining's corporate office and four operating mines. While adapting reporting practices to better align with immediate operational and stakeholder needs, SSR Mining continues to prepare the Report with reference to the Global Reporting Initiative (GRI) and Sustainability Accounting Standards Board (SASB) standards referenced in prior reports. The material topics presented in the Report were informed by a structured materiality pre-assessment undertaken in preparation for SSR Mining's comprehensive double materiality assessment planned for 2026. The Report can be accessed on SSR Mining's website at: www.ssrmining.com/corporate_responsibility
