All amounts in U.S. dollars unless otherwise indicated

DENVER, June 26, 2026 - [Vox Royalty Corp.](#) (NASDAQ:VOXR)(TSX:VOXR) ("Vox" or the "Company"), a returns-focused mining royalty and streaming company, is pleased to announce that, its subsidiary, Vox Royalty Cayman SEZC ("Vox Cayman"), has agreed to sell its capped gold offtake stream (the "i-80 Stream"), to [i-80 Gold Corp.](#) ("i-80 Gold"), for total consideration of \$4.8 million (the "Transaction"), to be satisfied through the issuance to Vox of i-80 Gold common shares (the "Consideration Shares"). The Consideration Shares will be freely tradeable and not subject to any resale restrictions or hold period.

Vox acquired the i-80 Stream in September 2025 as part of a global gold portfolio acquisition. The i-80 Stream comprised a gold offtake covering 100% of gold production from Ruby Hill, Cove and Granite Creek assets in Nevada, USA, up to an annual cap of 40,000 ounces per annum until December 2028.

In the first quarter of 2026, the i-80 Stream generated \$270,000 in net precious metal margin (8,281oz at an effective margin of \$32.51/oz) and is currently held at a carrying value of approximately \$2,600,000 as at March 31, 2026.

Completion of the Transaction is expected to occur prior to June 30, 2026.

Spencer Cole, President and Chief Investment Officer of Vox, commented: "This is an opportunistic divestment that monetizes our smallest offtake stream asset at approximately 2x carrying value after a nine-month holding period. Given the capped nature of the stream both in terms of time and largely fixed margin we are pleased to realize on this asset in a mutually beneficial transaction for both i-80 and Vox. Crystallizing this gain simplifies our portfolio and frees up capital to redeploy into longer-duration, uncapped assets."
