

# Camino Minerals Corporation: Exploration Commences at Three Gold Projects

15.06.2010 | [Marketwired](#)

Vancouver, British Columbia --(Marketwire - June 15, 2010) - Camino Minerals Corporation (TSX Venture: COR) ("Camino" or the "Company") is pleased to announce that exploration is now underway at three of its gold projects in northwestern Mexico.

Detailed airborne magnetic and radiometric surveys, totaling 6,625 line-kilometers, have commenced at Camino's El Rincon, Rodeo and Mecatona properties. In addition, soil and stream sediment geochemical surveys will soon be underway at the El Rincon and Rodeo projects. In the coming months, Camino will continue to advance all four of its exploration projects in Mexico, with the objective of defining targets for a fall drilling campaign.

Camino's exploration projects were all acquired by [Canplats Resources Corp.](#) ("Canplats") through agreements with La Cuesta International, Inc. ("La Cuesta") and subsequently transferred to Camino in connection with the recent C\$300-million acquisition of Canplats by [Goldcorp Inc.](#) ("Goldcorp"). Exploration of these promising exploration projects was put on hold as Canplats advanced the Camino Rojo gold deposit.

The principals of La Cuesta, Perry Durning and Frank (Bud) Hillemeyer, were recent recipients of the 2010 PDAC Thayer Lindsley International Mineral Discoveries Award, recognizing their outstanding record of grassroots discoveries in Mexico, which includes Goldcorp's Camino Rojo gold deposit (measured and indicated resources of 3,445,000 ounces of gold; inferred resources of 555,000 ounces of gold(i)) and Silver Standard Resources Inc.'s San Agustin (indicated resources of 1.59 million ounces of gold and 47.8 million ounces of silver; inferred resources of 1.06 million ounces of gold and 36.9 million ounces of silver(ii)) and Pitarilla deposits (probable reserves of 91.7 million ounces of silver; measured and indicated resources of 551.6 million ounces of silver; inferred resources of 82.2 million ounces of silver(ii)).

Camino also announces the resignation of Bruce Youngman as President and Chief Operating Officer. Mr. Youngman will continue to assist the Company on a consulting basis, as Camino advances its current exploration projects and reviews additional acquisition opportunities. The Company would like to thank Bruce for his role in advancing the Camino Rojo gold deposit, with Canplats, and in the start-up of Camino.

## About Camino Minerals Corporation

Camino is a new mineral exploration company that was formed in connection with Goldcorp's acquisition of Canplats. Camino is led by Canplats' former management, has approximately C\$9.2 million in the treasury and is focused on precious and base metal projects located in Mexico. For more information on Camino's properties and associated agreement terms, please refer to the Company's website at [www.caminominerals.com](http://www.caminominerals.com).
