

The 12th Annual CHINA MINING Congress and Expo To Open On November 16th 2010 at The Tianjin Meijiang Convention and Exhibition Centre

17.08.2010 | [ABN Newswire](#)

Hosted by the China Ministry of Land & Resources and the Tianjin Municipal Government, the 12th annual China Mining Congress & Expo 2010 will be held at the Tianjin Meijiang Convention and Exhibition Center from November 16 through 18, 2010. The theme of this year's Congress & Expo is: The World and China in Mining Consolidation: Co-operation, Responsibility and Development.

Given China's on-going economic expansion, the importance of entering into strategic partnership with foreign counterparts remains of the essence. The CHINA MINING Congress and Expo will give participants the opportunity to explore mutually beneficial possibilities for collaboration, and will feature attention-grabbing exhibition displays, enlightening conferences/ breakout sessions, and featured events that will both pay tribute to the outstanding achievement of a number of industry leaders as well as present unparalleled networking opportunities.

CHINA MINING Congress & Expo 2010 will call attention to and encourage original, forward-thinking joint partnership between international mining interests and those of China. With a diverse line-up of special sessions covering such topics as the current global mining capital market, developmental trends, the founding of the Chinese mining capital market, venture capital mechanism of exploration and innovative approaches for mining investment, attendees will gain insight to the opportunities available with the China mining sector.

In addition the conference will provide the opportunity to hear first hand from top Chinese government officials regarding the state of the mining sector in China and how the government is working in support and encourage best practices in exploration, development and foreign direct investment.

As with previous exhibitions CHINA MINING Congress & Expo 2010 will include exhibitor booths and official delegations from the primary extractive industries countries, mining and exploration companies, investment and financing institutions, evaluation and consulting companies, and (technical) service providers and equipment suppliers, as well as representatives of multi-lateral organizations interested in this crucial industry.

About China Mining:

China Mining Association is a juridical association approved by the State Council of the People's Republic of

China, with members ranging over the whole mining industry. The association mainly consists of, on a voluntary basis, domestic and overseas mining corporations (including oil fields), geological prospecting enterprises, nation-wide mining industry associations, province-level mining industry associations (unions), mining industry related scientific research institutes and academies, as well as the mining areas and cities. The principle of the association is to serve the mining corporations and the government, and to promote the development of mining industry, following the internal law and development process of mining industry, acting as a bridge and link between the mining industries and the government.
