

# Canasia Industries Corporation: Evaluating Projects in Tanzania

14.09.2010 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA -- (Marketwire) -- 09/14/10 -- [Canasia Industries Corporation](#) ('Canasia' and the 'Company') (TSX VENTURE: CAJ) (PINK SHEETS: CANSF) (FRANKFURT: 45C) is currently evaluating projects for possible acquisition or joint venture in Tanzania. Once a final decision has been completed an announcement will be made. There is no deal completed at this time nor any guarantee that one will be completed.

Recently, Canasia was informed by the operator that the first four holes have been completed at the Clone Gold Prospect near Stewart, BC. Visible gold has been encountered in all four holes. The budget for the 2010 Clone drill program will be approximately twice as large as last year's, which returned drill results grading as high as 44.75 g/t Au over 12.80 metres (announced October 22, 2009).

Negar Adam, president of Canasia stated, 'At this time we are evaluating projects in Tanzania that may compliment our current stable of projects. We are hopeful that a deal may be reached but at this time no agreement has been completed. Presently drilling is moving ahead on the Clone Prospect and we are optimistic about the drilling progress in light of encountering visible gold the first four holes.'

If you would like to be added to Canasia's news distribution list, please send your email address to [info@canasiaind.com](mailto:info@canasiaind.com).

Canasia has a well diversified portfolio of prospects. Canasia's current prospects include the following: (a) the Clone Gold prospect in Stewart, BC, that has returned grades as high as 44.75 g/t Au over 12.80 metres (announced October 22, 2009); (b) the Debut Gold prospect in NE Nevada; (c) 55,300 contiguous acres at Reed Lake, Manitoba; (d) significant acreage of Potash claims, bordering Alberta and Saskatchewan, which has been optioned out; (e) 130,500 acres prospective for Coal in SE Saskatchewan; (f) 180,000 acres prospective for Lithium in Alberta; (g) and mineral claims covering an area of approximately 9,200 hectares, located within the El Oro -- Tlalpujahu Gold/Silver belt in the states of Guanajuato and Michoacan, Mexico.

E.R. Kruchkowski, P. Geol., is the Qualified Person for the Clone project and has reviewed all content regarding the Clone.

Neither the TSX Venture Exchange Inc. nor its Regulation Service Provider (as that term is defined in the policies of the TSX Venture Exchange Inc.) accepts responsibility for the adequacy or accuracy of this press release.
